The UNCC Holshouser Hall Renovation is a \$15.2 Million, 100,000 SF, 11-story renovation with ground level. The project consists of new windows, and new brick façade. The project includes a complete MEP renovation with new plumbing systems, new mechanical systems, and an entirely new electrical system including transformer. Life safety improvements with new fire protection and fire alarm systems. Other portions of the project include drywall finishes, carpeting, acoustical ceilings, concrete structure repairs and additions, and modernize building elevators.

Anticipated Bid Date – April 29th, 2014

Submittal of completed prequalification forms may be hand delivered, mailed, faxed, or submitted electronically to the Balfour Beatty Construction office. Copies of the form can be made available by either contacting Balfour Beatty Construction or at the following link:
