

PLEASE NOTE:

In anticipation of possible winter weather conditions that are predicted to begin Tuesday evening, February 11th, below is a reminder of how parking will operate if parking facilities are impacted by inclement weather conditions:

- If weather requires closing employee sections of a parking deck or surface lot, signs will be placed at the entrances and/or tops of ramps of the facilities notifying employees of the closure.
- Assigned parking will be suspended and employees may park in any available space in their assigned deck or lot.
- The vehicle towing policy will be suspended for that facility during this time.
- Signs will be removed when conditions have cleared and an email will be sent informing employees they may return to their assigned parking spaces.

If the weather conditions are extreme:

- Visitor parking operations will be suspended and gates in these areas will be raised.
- Employee gates at Lot 20 and Deck 77 will be raised.
- Employees assigned to surface lots that have been severely affected may park in any open deck or in one of the visitor lots without making payment. You will be required to show your state employee's ID to the attendant in order to exit without paying.
- Employees who are assigned to a deck that has been affected may park in any employee space in the deck to which you have been assigned, please do not use the visitor parking lots, as these spaces are needed to accommodate visitors and employees who may be displaced from their assigned surface lot due to ice and/snow.
- Employees in underground decks (Decks 17 and 65) that are impacted **may** use the visitor lots.

Please refer to the State Parking Inclement Weather Policy and updated information regarding parking during inclement weather at <http://www.doa.nc.gov/parking>.

Should you have any questions, please contact State Parking at [919-807-4499](tel:919-807-4499) or email parking@doa.nc.gov.

Thank you.
