.....This document is for the purpose of awarding the bid.....

PROPERTY OFFERED FOR SALE:

Estimated Quantities and Definitions

- The SSPA estimates approximately **375,000 Lbs.** of recycle-grade computer equipment and other electronic equipment will be collected, annually. These are estimates only, actual amounts may vary. The NC State Surplus Property Agency cannot be responsible for differences of any amounts for any category listed below.

Quantities

- **140,000 Lbs.....CPU's** – Most appear to be Pentium-grade, but some older models still come through. CPU's have undergone varying degrees of cannibalization, most notably, the removal of the hard drives. A few Apple computers come through each year.
- **90,000 Lbs.....Printers** – Dot matrix, laser and large network printers.
- **22,000 Lbs.....Keyboards**
- **22,000 Lbs..... Miscellaneous** - modems, docking stations, CD-ROM's, hard drives, etc.

- **15,000 Lbs.....UPS's** (Uninterruptable Power Supplies) for PC,s and Network systems.
- **5,000 Lbs.....Copiers** - Typical office style. All makes and models.
- **20,000 Lbs.....Mainframe items** - Various types
- **9000.....Power Cables**, Printer cables, network cables, etc.
- **500 Lbs.....Printed Circuit Boards** (Motherboards, NICs, video cards, audio cards, and other sundry expansion cards, etc.)
- **7,500 Lbs.....Fax Machines** - Typical office style. All makes and models.
- **23,000Network Items** - network hubs, switching boxes, controllers, routers

SCOPE

- **This is an agency-specific contract. The contractor will be required to pick up from one location, specifically, the State Surplus Property Agency Computer Warehouse in Raleigh, NC.**
- Any contractor interested in placing a bid for these materials must be capable of reusing, de-manufacturing the components, and/or recycling all components. The primary objective is to find a contractor to defer these items from the landfill using the following hierarchy:
 1. Reuse/De-manufacture.
 2. Use United States markets to re-use or recycle the material.
 3. Use export markets to re-use or recycle the material when domestic ones are not available.

Electronic-related items must be handled and disposed of following all local, state, and federal regulations applicable to the provisions required within this RFB.

**THERE WILL BE A MANDANTORY BID CONFERENCE
ON March 24th, @ 1:00 PM....NO EXECPTIONS.**

You or Your Representative Must Be Present.
