

Domestic Violence Intervention Programs in North Carolina

April 2021 - March 2022

What are domestic violence intervention programs?

- Designed to educate offenders about their behavior and help them develop new methods of interacting with intimate partners, family members, and their communities
- 26 weeks long; virtual or in-person, depending on program
- 39 service providers working in 57 counties
- 26 counties have access to programs in Spanish

Where were referrals from?

Who participated?

Of those referred, **2,518** people were accepted & enrolled

1,252 people completed the program → 90% men & 10% women

1,915 contacts were made to Victim Service Providers (domestic violence agencies)

Why do people not complete their DVIP?

- 18% of referrals were not enrolled because they did not show up for their intake appointment
- Excessive absences accounted for 70% of the individuals who were terminated from a DVIP

1. Other referrals were from mental health providers, substance abuse providers and self-referrals
