

**PRODUCT QUESTIONNAIRE  
MARKERBOARDS, TACKBOARDS AND ACCESSORIES**

**NOTE:** Complete the requested information for products bid. An incomplete questionnaire may eliminate products bid without the benefit of a second chance.

**A. Markerboards**

1. Porcelain Enamel, Felt-Tip Type Markerboard (Liquid Chalk, LCS) Writing Surface:

Sheet metal thickness of steel (24 or 28 gauge)? \_\_\_\_\_

Base metal quality is either enameling type metal with low carbon content or enameling type aluminumized steel? \_Yes/No\_\_\_\_\_

Enameled steel face sheet laminated to a 7/16" Medium Density Fiberboard (MDF)?\_Yes/No\_\_\_\_\_ Markerboard Density?\_\_\_\_\_lbs/cu. ft.

What is extruded aluminum thickness for trim members in inches?\_\_\_\_\_

Does product meet requirements and comply with the description and terminology described in the PEI-1002 Manual and Performance Specifications for Porcelain Enamel Writing Surfaces? \_Yes/No\_\_\_\_\_

2. Aluminum Frame for Wall Mounted Boards:

Material is anodized extruded aluminum? Yes/No \_\_\_\_\_

Frame encloses all four sides of board? Yes/No \_\_\_\_\_

Bottom frame section attached or is integral to the chalk/eraser trough?  
Yes/No \_\_\_\_\_

Frame is minimum 3/4" wide at face by minimum 5/8" deep for 1/2" thick boards?  
\_\_Yes/No \_\_\_\_\_

Optional map rail attached to top member of frame? Yes/No \_\_\_\_\_

3. Marker/Eraser Trough:

Material is anodized extruded aluminum? Yes/No \_\_\_\_\_

Cross section thickness is a minimum of 1/16" extruded aluminum?  
\_\_Yes/No \_\_\_\_\_

Trough's width is a minimum 2-1/4"? \_\_Yes/No \_\_\_\_\_

Blade style trough provided with a smooth 3/4 inch radius rounded ends or securely attached rounded protective end caps? \_ Yes/No \_\_\_\_\_

Box style trough shall be continuous with slanted front aluminum end enclosures to prevent a projecting edge along length or at ends?  
\_Yes/No \_\_\_\_\_

4. Writing Surface Colors:

Writing surface colors? \_\_\_\_\_

Markerboards are provided with attachment clips, adhesive and constructed in accordance with the NC Standard Specification for Markerboards and Tackboards, # 7110-6K, dated October 7, 2009? \_Yes/No \_\_\_\_\_.

**B. Tackboards**

Frame material is anodized aluminum? \_\_\_\_\_

Clips for hanging boards provided? \_Yes/No \_\_\_\_\_

Provided with fine grain natural cork? \_Yes/No \_\_\_\_\_

Board consist of 1/8" thick cork laminated to minimum 3/8" thick fiberboard for sizes up to 12 foot in length. Yes/No \_\_\_\_\_

Board consist of 1/4" thick cork laminated to minimum 1/4" thick medium density fiberboard (MDF) for sizes up to 12 foot in length. Yes/No \_\_\_\_\_

All mounted boards laminated under pressure with a suitable adhesive for a permanent bond? \_Yes/No \_\_\_\_\_

Lamination of permanent nature? \_Yes/No \_\_\_\_\_.

Tackboards are provided with attachment clips, adhesive and constructed in accordance with the NC Standard Specification for Markerboards and Tackboards, # 7110-6K, dated October 7, 2009? \_Yes/No \_\_\_\_\_.

**B. Markerboard Accessories**

Tackboard markers, erasers, and cleaner are provided in accordance with the NC Standard Specification for Markerboards and Tackboards, # 7110-6K, dated October 7, 2009? \_Yes/No \_\_\_\_\_.
