

In [Executive Order 143](#) the NC HUB Office was charged with creating a Small Business Enterprise (SBE) program to enhance opportunities for small historically underutilized businesses. While the HUB Office has begun the process of creating the SBE program we are encouraging certified HUB vendors to apply if they meet the criteria. If your certified Historically Underutilized Business has 100 or fewer employees and \$1,500,000 or less in annual net income (after “Cost of Goods Sold” is deducted) we encourage you to complete and return the one page affirmation form found on this page.
