2020 U.S. Census

- Welcome
- Group Swearing in Ceremony
- Group Photo
- Brief Introductions
- Executive Order
- Census 2020: Who, What, When, Where and Why?
- North Carolina Census Data and Demographics
- Lunch and Networking
- Selection of Commission Leadership
- Subcommittee Engagement Session
- Open Discussion/Report Out
- Next Steps and Closing Remarks

Oath of Office

Oath of Office

All advisory board and commission members are to be sworn in and sign an Oath of Office prior to voting on matters before the board.

Introductions

North Carolina Complete Count Commission for Census 2020

PLEASE SHARE YOUR:

- ✓ Name
- ✓ Origination and/or Role

Executive Order

Mission: Governor Roy Cooper signed Executive Order 79, establishing the North Carolina Complete Count Commission, an advisory membership charged with increasing awareness and understanding about the importance of the 2020 Census and encouraging people of North Carolina to participate in the 2020 Census.

Commission Duties

Duties: NC Complete Count Commission members will engage in planning, outreach, awareness and education efforts to encourage individuals, communities, civic organizations, faith-based groups, local governments and the media to support and facilitate the most complete, accurate and on-time census count for North Carolina in the year 2020.

Commission Duties

Ethics: The NC Complete Count Commission is not a covered board under N.C. State Ethics Commission guidelines; however, the NC Complete Count Commission and its members should strive to adhere to principles set forth in the State Ethics Commission Rules. Visit <https://ethics.ncsbe.gov> for more information).

Key Principles

- No one Commission member speaks for the whole Commission
- Compensation is not offered for time served on the Commission; acceptance of gifts is not allowed

Why Does It Matter?

Why does a complete and accurate Census matter?

- The federal, state and local governments all use census data to make policy decisions related to funding healthcare, education, transportation and much more – which can equate to billions of dollars in federal funds for North Carolina.
- Businesses big and small use census data as well.
- Finally, census data are used as the basis of our democracy: every 10 years political districts are redrawn in a process called redistricting and how many seats a state has in the U.S. House of Representatives is recalculated in a process called congressional apportionment. (After the 2010 Census, Oregon, Nevada, Utah, Arizona, Texas, Florida, South Carolina, Georgia, all gained seats; Iowa, Missouri, Illinois, Michigan, Louisiana, Ohio, Pennsylvania, New York, New Jersey, and Massachusetts lost seats!)

Commission Expectations

What type of work will the Commission and subcommittees be engaged with?

Capacity Building, Promotion Planning and Action Items

Capacity Building	Promotion Planning	Action Items
<ul style="list-style-type: none">• Recruit community, civic, faith-based, philanthropic organizations and business leaders to serve on the committee.• Create subcommittees.• Set a schedule for meetings and establish deadlines for specific goals.• Consider budget needs.• Create educational materials (perhaps as a subcommittee assignment).• Compile what federal and state programs have benefitted the area.	<ul style="list-style-type: none">• Consider what are the biggest concerns or barriers to answering the census.• Who is critical to engage first?• How do different groups view government and the census?• What languages will be needed?• Create apparel such as t-shirts, tote bags and hats.• Consider producing media advertisements or PSAs to reach the public, including radio, TV, internet or billboards.• Partner with business in the area to promote the census.	<ul style="list-style-type: none">• Contact and present to organizations such as places of worship and neighborhood associations.• Take part in established community events such as fairs.• Hold a food drive with 2020 Census promotion.• Attend community meetings with 2020 Census literature and be available to answer questions or concerns.• Have all government employees answer phones and emails with a 2020 Census message and be ready to answer common questions such as those listed above.

TOGETHER WE WILL ...

**MAKE NC
COUNT**

Goals

- **Impact of the 2020 Census**
- **Census Preparations To Date**
- **Census Partnership and Promotion**
 - NC Complete Count Commission

Census Impact

- **Our Voice (Representation)**

- Census is required in the Constitution
- Count every resident, once, and in the right place
- Apportionment and Redistricting

- **Our Tax Dollars (Funding)**

- \$1,623 per person, per year in Federal Funding to NC based on Census data in FY2015
- About \$200 per person, per year in state funding based on Census data

- **Our Future (Planning)**

- Largest survey in the US providing reliable, comparable data
- Vital for business and local government service

General Preparations

- **NC Geographic Information Coordinating Council (GICC)**
 - Committee of state, federal, and local agencies to coordinate geospatial data development and use.
 - NC SDC chairs Census working group supporting GSSI, LUCA, and BAS
- **15 Regional Trainings**
 - Hosted by NC SDC affiliates and highlighting LUCA and Census promotion.
 - Planning for another round of trainings on CCCs, PSAP, and Boundary verification.
- **Census Staff Visits**
 - Regional Office staff visited larger municipalities and Governor's office promoting LUCA and CCC participation
 - Partnership specialist visiting local governments promoting CCC creation

NC SDC Activities

- **Communication**

- Administration and Affiliates
- Listservs – County Commissioners, Municipalities, Planners, Data Users
- Stakeholders

- **Participation**

- BAS/Consolidated BAS (CBAS)
- Census Redistricting
- Participant Statistical Areas Program (PSAP)

- **Preparation/Training**

- Local workshops
- Webinars/streaming
- Leveraging existing meetings

Local Update of Census Addresses (LUCA)

Once a decade verification of residential and group quarters addresses by tribal or local governments

Connects Census forms with households

Boundary Annexation Survey (BAS)

Annual verification of corporate boundaries

**Places addresses – and their
Census counts – in the correct
area**

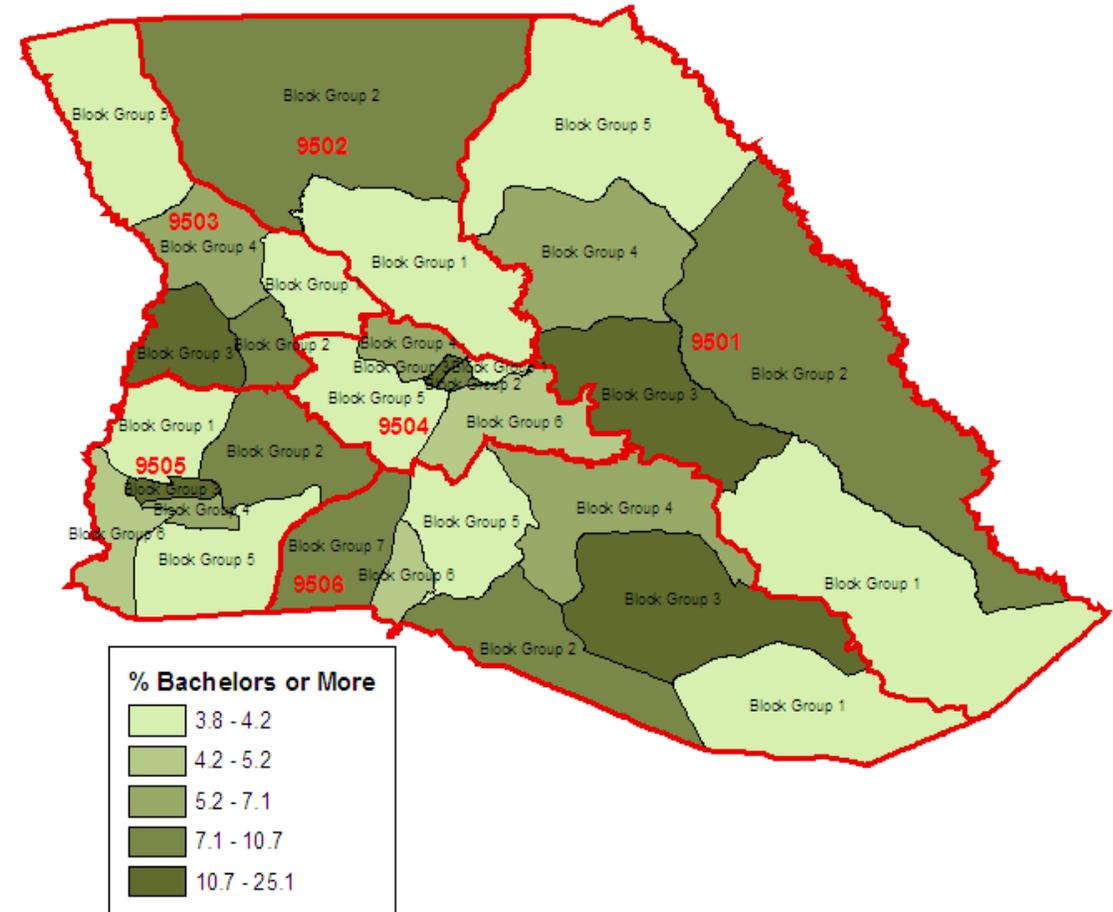

Participant Statistical Areas Program (PSAP)

Once a decade tribal and local suggestion of statistical boundaries

- census tracts
- block groups
- Census Designated Places (CDPs)

Bladen County Educational Attainment by Census Block Group
Source: 2011 American Community Survey (2007-2011)

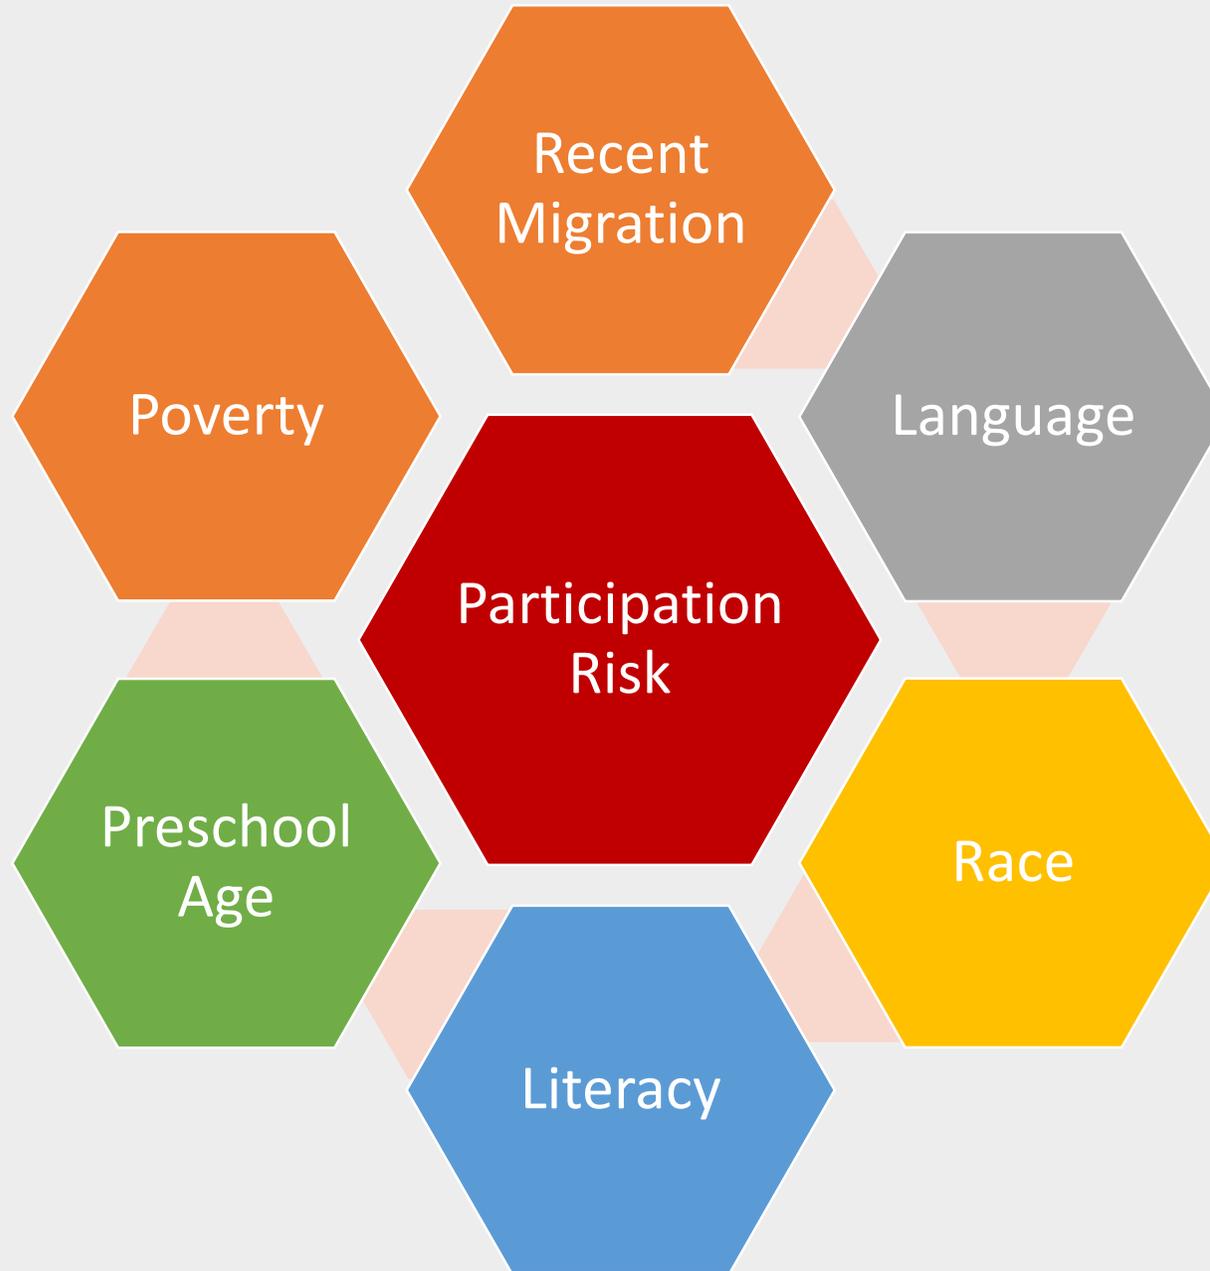

Census Partnership and Promotion

- Census data is the foundation of apportionment in the US House of Representatives, drives over \$1,600 per person per year in federal funding to North Carolina, and informs local planning, economic development, and services.
- Preparation – LUCA, BAS, PSAP – is very important
- Preparation without Participation is wasted effort
- Local preparation partnerships – Complete Count Committees involve trusted local faces in promoting Census participation

Complete Count Committees - CCCs

- Census staff are meeting with local elected leaders – state, county, and municipal – to encourage the formation of CCCs.
- Anyone can form a CCC
Churches, schools/campuses, non-profits, neighborhoods,
Businesses, clubs/organizations, ... anyone!
- CCCs are NOT identical!
CCCs will vary in organization and operation because the communities they serve vary
- All CCCs should – Assess, Plan, Budget, and Communicate

Recent Migration

Poverty

Language

Participation Risk

Preschool Age

Race

Literacy

Assessing Risks

- There is no substitute for local knowledge, but the Census Bureau has tools that can help assess the Census participation risk at small geographic areas – Census Tracts and Block Groups
- Census Planning Database
Detailed risk factor data from the most recent ACSs and response rate data from the 2010 Census
- Response Outreach Area Mapper (ROAM)
Online risk mapping of Planning Database data and a calculated Low Response Score to the Census Tract level
- Census Engagement Navigator
Visualization of Planning Database data and 2010 Census mail response rate to the Census Tract level

Planning Database

- [2016](#)
- [2015](#)
- [2014](#)
- [2012](#)
- [2000](#)

Planning Database

The Planning Database (PDB) assembles a range of housing, demographic, socioeconomic, and census operational data that can be used for survey and census planning. Data are provided at both the census block group and the tract levels of geography.

The Planning Database uses selected Census and selected American Community Survey (ACS) estimates. In addition to variables extracted from the census and ACS databases, operational variables include the 2010 Census Mail Return Rate for each block group and tract.

Starting with the 2014 PDB, percentage calculations based on the PDB counts have been added. In addition, a new Low Response Score (LRS) is provided that is similar in purpose to the Hard-to-Count scores included in the 2000 PDB. This score identifies block groups and tracts whose characteristics predict low census mail return rate and are highly correlated (negatively) with census and survey participation. A discussion of the LRS methodology can be found in [Research Report Series \(Statistics #2014-08\)](#).

The database can be used in many ways, including:

- Identifying areas where special outreach and promotion efforts could be considered
- Linking spatial map data files to create thematic maps
- Generating reports, cross tabulations, and simple analyses
- Planning recruitment activities by Regional Census Centers, and Local Census Offices

Response Outreach Area Mapper

January 2018

The Response Outreach Area Mapper (ROAM) application was developed to make it easier to identify hard-to-survey areas and to provide a socioeconomic and demographic characteristic profile of these areas using American Community Survey (ACS) estimates available in the [Planning Database](#). Learning about each hard-to-survey area allows the U.S. Census Bureau to create a tailored communication and partnership campaign, and to plan for field resources including hiring staff with language skills. These and other efforts can improve response rates. To learn more see [The Low Response Score \(LRS\): A Metric to Locate, Predict, and Manage Hard-to-Survey Populations](#).

To help you get started, please reference ROAM's additional resources:

- [User Guide](#)
- [Data Dictionary](#)
- [Frequently Asked Questions](#)

ROAM Application

Census Engagement Navigator

December 20, 2017

Census Engagement Navigator

Welcome to the Census Engagement Navigator. This interactive, data visualization allows users to quickly understand what areas of the country had high or low return rates in the 2010 census, and the current demographic makeup of these neighborhoods. This information allows non-profits, local and federal government, and policy makers to identify areas that may need more engagement in Census Bureau surveys. The navigator combines the 2010 census mail return rate and latest American Community Survey statistics down to the census tract level.

Begin by hovering over a state to see the 2010 Census Mail Return Rate appear within the tooltip (hover-over box that appears), next click on a state to engage the surrounding charts and graphs, then follow the prompts within the tooltip to discover more.

At the census tract level, enter a geography (eg. zip code) in the map search box to view a specific area or use the pan and zoom tools contained within the map. Once completed, click the home button on the map or the browser refresh button to reset the visualization before continuing. If there is no map at the tract view, click on the home button inside the map to reset the view.

Map View:

- Contiguous States
- Alaska
- District of Columbia
- Hawaii

California

Total population	38,654,206
Persons under 5 years (percent)	6.5
Persons 65 years and over (percent)	12.9
Median household income (in 2016 dollars)	63,783
Persons in poverty (percent)	15.8
High school graduate or higher (age 25+, percent)	82.1
Foreign-born persons (percent)	27.0

Planning

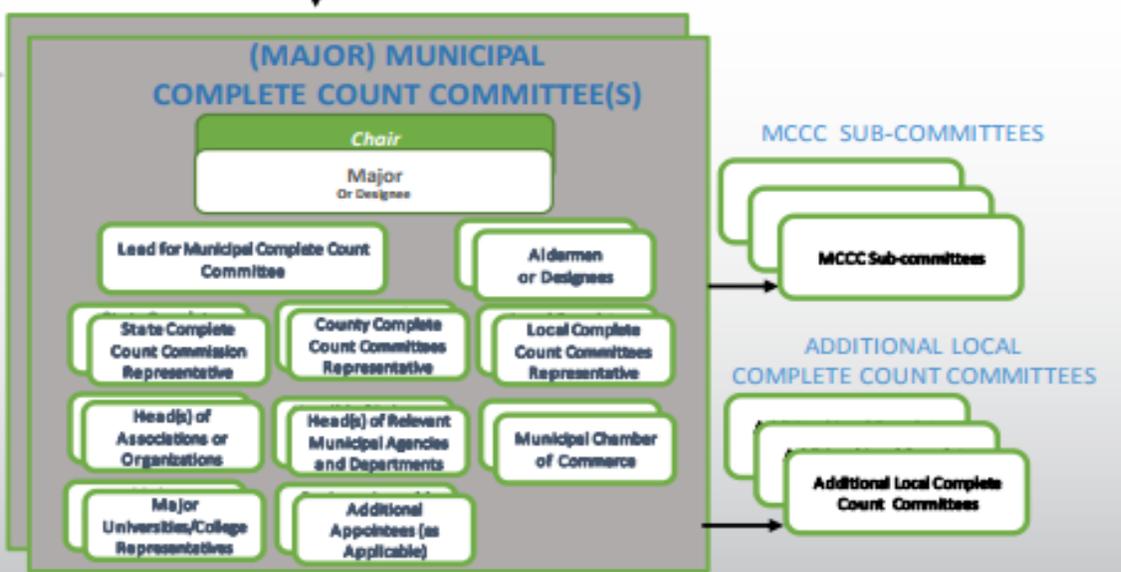

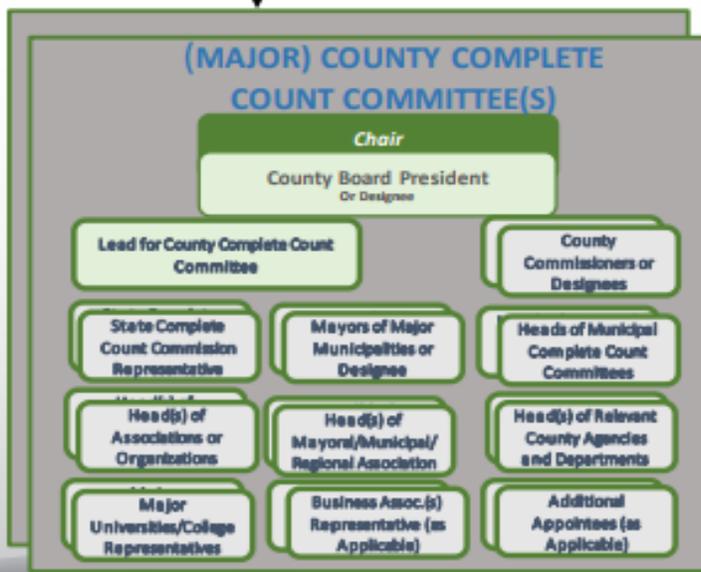

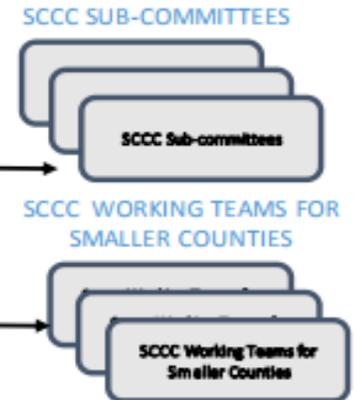

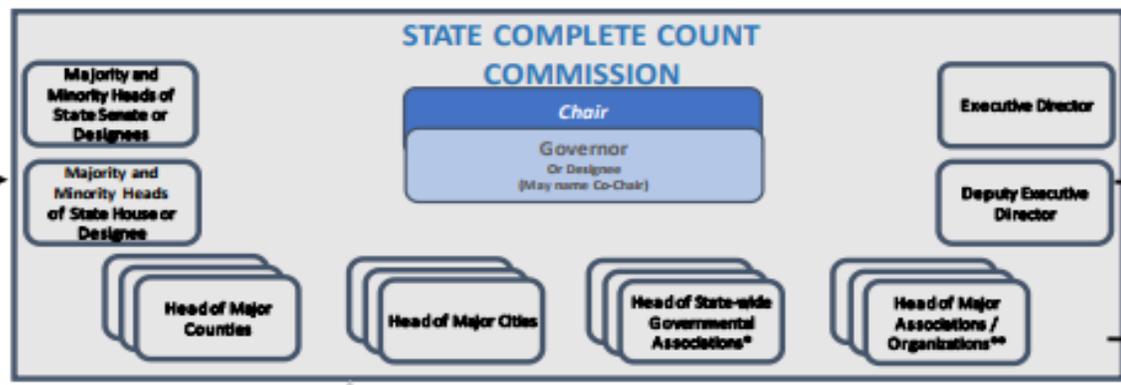

- The assessment process identifies participation risk populations and areas
- Assess, plan, budget, communicate - LOCALLY
- Local trusted voices in these areas are high priorities
- Trusted local feedback will inform outreach opportunities and strategies
- Feedback, opportunities, and strategies will guide the structure of your CCC and establish a rough timeline
- Plan to be flexible

Integrated SCCCs and CCCs

Legend: - - - - -> Supports → Manages ⇄ Bi-directional Info Flow

PARTNERSHIP SPECIALIST

- Facilitates establishment of a State's Complete Count Commission
- Facilitates establishment of Complete Count Commissions
- Provides support for SCCC and CCC 2020 Census promotion and outreach efforts

* State-level Departmental Heads, additional Legislative, other Appointees as applicable
 ** Major Business Associations and Labor Organizations, Farm Bureau, Heads of Philanthropic Organizations

SCCC and CCC Subcommittee Types

BUSINESS	<ul style="list-style-type: none"> Involving a community's business sector creates a unifying element that touches every household within the community. 	EX-OFFENDER	<ul style="list-style-type: none"> The ex-offender population is sizeable and is often disenfranchised from the community and hard to track.. 	LIBRARY	<ul style="list-style-type: none"> Urban Libraries Council says libraries are the "most trusted government entity", poised to be pivotal for civic engagement.
COMMUNICATIONS, MEDIA AND TECHNOLOGY	<ul style="list-style-type: none"> Assists community Organizations in utilizing Census toolkit materials enables them to innovate. 	FAITH-BASED	<ul style="list-style-type: none"> Faith-based organizations are found in every community and maintain interactive and ongoing communications with their members. 	RECRUITING	<ul style="list-style-type: none"> Reaching all members of the workforce community enhances the ability of the Census to plug into existing recruiting resources.
COMMUNITY ORGANIZATIONS	<ul style="list-style-type: none"> Utilizing community orgs provide outreach opportunities for a broad spectrum of residents of all ages, races and backgrounds. 	GOVERNMENT	<ul style="list-style-type: none"> Census can manage costs by leveraging the ability of local government to provide knowledge of the population, organizations., and institutions. 	SENIOR CITIZEN	<ul style="list-style-type: none"> Although a high responding group, the trend towards reduced home ownership may create enumerating challenges for field.
DATA AND MAPS	<ul style="list-style-type: none"> Understanding where hard-to-count areas exist is important to direct subcommittee activities toward the correct populations and geographic areas. 	GROUP QUARTERS	<ul style="list-style-type: none"> Because of the limited access to most group quarters, cooperation from the institutions is vitally important to achieve an accurate count. 	SPECIAL HOUSING	<ul style="list-style-type: none"> The rental population will exceed a third of the entire U.S. population by 2020.No matter the housing type, access is vital for an accurate count.
EDUCATION (PRESCHOOL - GRADE 12)	<ul style="list-style-type: none"> Reaches U.S. households through schools and helps create a generation of future self-responders. 	HOMELESS	<ul style="list-style-type: none"> In the 2010 Decennial Census, the count was 209,325 for persons counted at shelters, outdoor locations, soup kitchens and mobile food vans. 	VETERANS	<ul style="list-style-type: none"> Over 22 million veterans living in the United States present a sizeable bloc distributed throughout the 50 states.Former military personnel can provide leadership and excellent recruiting assistance.
EDUCATION (POST SECONDARY)	<ul style="list-style-type: none"> Works with university housing to obtain administrative records for group quarters, builds relationships with leadership to facilitate access. 	IMMIGRANT	<ul style="list-style-type: none"> One of the serious challenges for a Census enumerator is encountering housing units where no one in the household speaks English. 	STATE DATA CENTERS/CENSUS INFORMATION CENTERS	

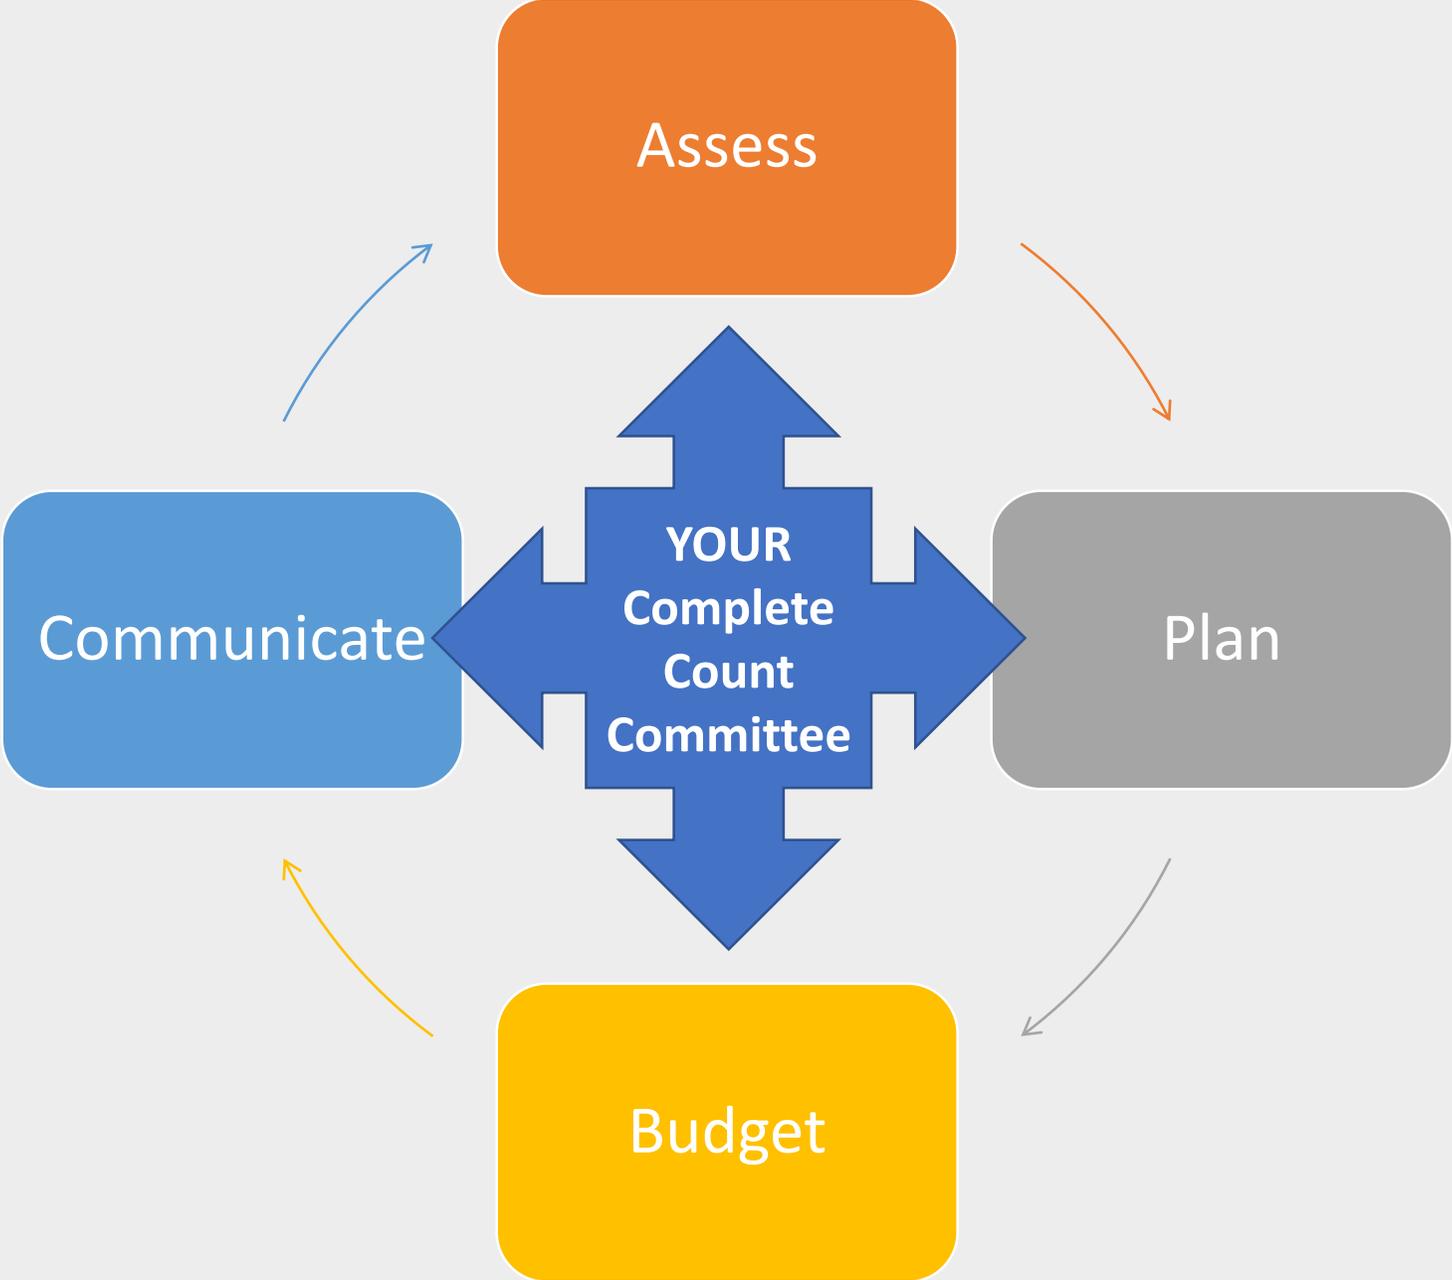

Budget

- Assessment, organization, and strategy will create demands on time and resources
- Take advantage of existing skills and resources - leverage/piggy-back
- Use resources from the Census Bureau, State or neighboring CCCs
- Explore cost sharing opportunities with local partners – businesses, organizations, schools/colleges, faith-based groups, etc.
- Be innovative, efficient, and collaborate with neighboring CCCs

Communicate

- You are NOT alone
- Communicate with your community but also with your partners
- Stay in touch with local CCCs and trusted voices
- Census Bureau staff and partnership resource are available
- Stay in touch with the NC CCC leadership
- Share your stories

Our Website – <https://census.nc.gov>

North Carolina 2020 Census

Make NC Count

The Census is your chance to make sure your community counts. Participating in the Census will help make sure your community gets:

- Fair representation in Congress
- Financial resources for health, schools, transportation, and more
- Information leaders need to help your community plan for the future.

Lunch Break

Action!

During lunch, review and consider each of the various subcommittee themes posted around the room. Place the dots you have been provided under six (6) different themes you believe the Commission should prioritize first.

Commission Leadership

Chair: Organize, set priorities and facilitate each meeting of the Commission. Share Commission reports and recommendations with Governor and other partners, as needed.

Vice Chair: Assist Chair in stated duties; facilitate Commission meetings in absence of Chair, as needed.

Secretary: Coordinate recording of meeting minutes (including any voting/action items) review and check for accuracy, and be responsible for sharing with Commission.

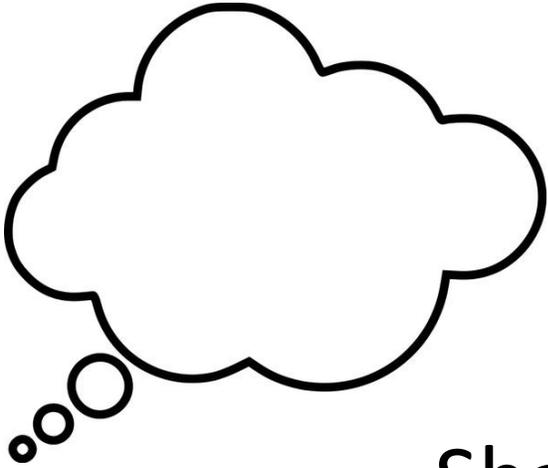

Subcommittee Engagement Session:

Questions:

1. Who is your audience?
2. Who are your partners?
3. What are some of your awareness opportunities?
4. What are some challenges/barriers?

Open Discussion/Report Out

Share your thoughts and questions!

Next Steps

Next Steps:

- Nan will collect any written responses from your subcommittee brainstorming session and share with all of you.
- We will follow up in email with meeting minutes, today's presentation, and any other electronic resources we have mentioned here today.
- We are in the process of creating a Commission member resource webpage and will share that link once completed.
- Meeting timeline

Next Meetings

Next Meetings:

- Conference Call: **December 12, 2018**
- In-person Meeting: **February 6, 2019**

Action Items

1. Make a list of contacts who may be able to serve as partners in helping to raise awareness around the importance of Census 2020 (personal, professional, organizations, businesses, nonprofits, etc.)
2. Make of list of organizational convenings, conferences, newsletters, listservs, etc. that the Commission should consider targeting for sharing of Census 2020 information.
3. Be prepared to share at the conference call your subcommittee's top three strategies/tactics to deliver key messages and raise awareness about Census 2020.

THANK YOU!
