

How to Create a Recycle Entry in AssetWorks

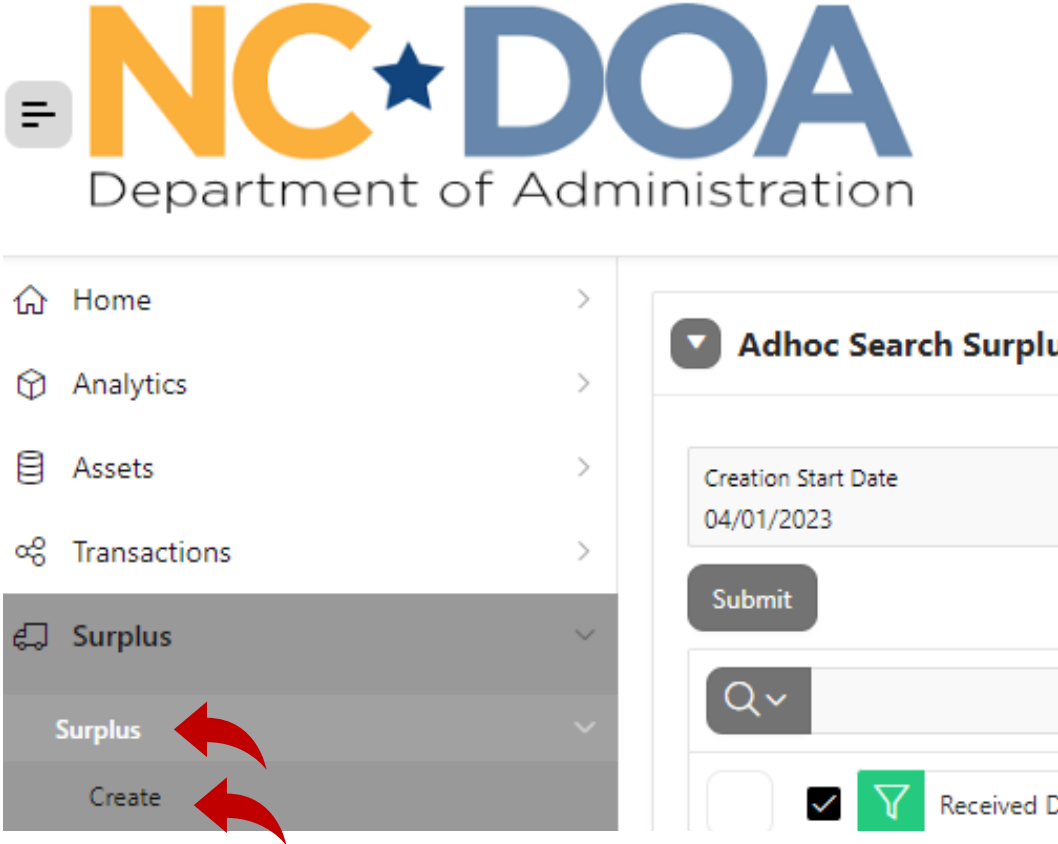

The Recycling Surplus Method is for all recycling where funds are received back for the department.

If funds will not be received back, please see the instructions for a Trash (worthless) submission.

Recycle submissions are the only type of submission where you would enter the items into AssetWorks after the items are already picked up by the recycling contractor.

From the Home screen in AssetWorks, **click on Surplus, then Create.**

Under Surplus Method, **click Recycle** from the drop-down box

A screenshot of a web application interface. On the left is a vertical navigation menu with items: Home, Analytics, Assets, Transactions, Surplus (highlighted), Surplus, Create, and Batch Receive. The main content area is titled "Create Surplus Transfer" and contains several form fields: "Surplus Method *", "From Agency *", "From Division *", "Budget Code", "Recycling Contractor", "Notes/Comments", and "Property Location" (with a sub-field for "Building"). The "Surplus Method *" dropdown menu is open, showing a list of options: "Agency Sale", "LE Retirement", "Promote Only", "Recycle" (indicated by a red arrow), "Sell On-Site", "Send to Surplus", "Trade-In", and "Trash (worthless)".

From Agency: Click on the list icon on the right side of the text box and **select which agency is recycling the item.**

From Division: Click on the list icon on the right side of the text box and **select which division is recycling the item.**

Budget Code: This comes from your fiscal office and determines where the funds from the sale are directed. If you are with a school or municipality that doesn't have a budget code, you may enter zeros.

Recycling Contractor: **Enter the recycling contractor** that is picking up and paying for the item(s).

Notes/Comments: **Leave blank.**

Property Location: **Enter the address and county** where the item is located and the **contact name, phone number, and email** of the person who is entering the item.

Read through the **Hazardous Materials and Sensitive Data** information and **click on the box that you agree to the terms and conditions.**

Click **Create**

Under Add Assets, click Create New Asset
