## 1.0 PURPOSE AND BACKGROUND

The Department of Administration (DOA) serves as the business manager for North Carolina state government and provides leadership to state government for the effective, efficient, economical, and equitable delivery of services to the public. The department also provides assistance and services to several advocacy programs that serve diverse segments of the state's population that have traditionally been underserved. The Division of Purchase and Contract (P&C) is the strategic force to provide the State's entities with a catalog of Statewide Term Contracts (STC) that provide for an encompassing organized and efficient manner to pool resources in an effort to provide goods and services.

The State of North Carolina (State) through the Department of Administration (DOA) Division of Purchase and Contract (P&C) is seeking qualified Vendors to establish a Statewide Term Contract to furnish and deliver a comprehensive, multiple manufacturer product line of new, unused, currently produced fleet and zero emissions vehicles on an "As Needed" basis, if and when ordered by State Departments, Agencies, and Higher Education Institutions during the contract period. Vendor vehicle offerings must meet the following categories:

- **CATEGORY A** SEDANS, All Types and Configurations
- **CATEGORY B** SUV/CROSSOVER, All Types and Configurations
- **CATEGORY C** VANS, All Types and Configurations
- **CATEGORY D** LIGHT TRUCKS, All Types and Configurations
- **CATEGORY E** MEDIUM AND SUPER DUTY TRUCKS, All Types and Configurations
- **CATEGORY F** PASSENGER VANS/CARGO VANS/CREW VANS, All Types and Configurations
- **CATEGORY G** CAB AND CHASSIS - All Types and Configurations
- **CATEGORY H** POLICE PURSUIT VEHICLES/SPECIAL SERVICE VEHICLES (PPV/SSV) SEDANS, VANS, & TRUCKS, All Types and Configurations
- **CATEGORY I** ELECTRIC (ZEV) HYBRID VEHICLES ALL TYPES (Sedan, Vans, SUV, & Trucks) - All Types and Configurations

To comply with Governor Cooper's Executive Order 80, North Carolina's Commitment to Address Climate Change and Transition to a Clean Energy Economy (October 29, 2018), the contract resulting from this solicitation intends to provide any type of vehicle to support the State's vehicle needs, including Alternative Fuel Vehicles (AFVs) and Zero Emission Vehicles (ZEVs).

Based on historical data, the State has purchased approximately \$210 million worth of Fleet Vehicles during FY 2021-2023 under the previous contract. No maximum or minimum quantities are guaranteed. The State shall not be obligated to purchase in excess of its normal requirements.

The intent of this Invitation for Bids "IFB" is to receive pricing from qualified Vendors that will offer savings to the State and to confirm, through Vendors' submission of bids, an ability to meet the State's needs.

The Contract resulting from this IFB is mandatory for State Departments, most State Agencies, and State Higher Education Institutions (except under the conditions specified in G.S. 115D-58.14(a) and G.S. 116-13). The Contract may also be utilized, without further competition, by non-mandatory State Agencies and Other Authorized Entities.

The intent of this solicitation is to award a Statewide Term Contract.

### 1.1 CONTRACT TERM

The Contract shall have a term of five (5) years, beginning on the date of final Contract execution (the "Effective Date"). At any time during the contract period the State may conduct an Open Enrollment process by posting a solicitation in the Ariba Sourcing Tool for the purpose of adding new manufacturer(s) to the contract, to provide a wide coverage of vehicles. The awarded Vendors will remain on the contract for the duration of the contract term unless terminated for convenience or cause (failure to perform under the original contract terms and conditions).

In addition, the State reserves the right to extend a contract term after the last active term.

Bids shall be submitted in accordance with the terms and conditions of this IFB and any addenda issued hereto.

## 2.0 GENERAL INFORMATION

---

### 2.1 INVITATION FOR BID DOCUMENT

The IFB is comprised of the base IFB document, any attachments, and any addenda released before Contract award, which are incorporated herein by reference.

### 2.2 E-PROCUREMENT FEE

**ATTENTION: This is an NC eProcurement solicitation facilitated by the Ariba Network. The E-Procurement fee may apply to this solicitation. See paragraph entitled ELECTRONIC PROCUREMENT of the North Carolina General Terms and Conditions.**

General information on the E-Procurement Services can be found at: <http://eprocurement.nc.gov/>.

#### **What is the Ariba Network?**

The Ariba Network is a web-based platform that serves as a connection point for buyers and vendors. Vendors can log in to the Ariba Network to view purchase orders, respond to electronic requests for quotes, participate in Sourcing Events, and collaborate with buyers on contract documents.

For training on how to use the Sourcing Tool to view solicitations, submit questions, develop responses, upload documents, and submit offers to the State, Vendors should go to the following site:

<http://eprocurement.nc.gov/training/vendor-training>.

### 2.3 NOTICE TO VENDORS REGARDING IFB TERMS AND CONDITIONS

It shall be the Vendor's responsibility to read the Instructions to Vendors, the North Carolina General Terms and Conditions, all relevant exhibits and attachments, and any other components made a part of this IFB and comply with all requirements and specifications herein. Vendors also are responsible for obtaining and complying with all Addenda and other changes that may be issued in connection with this IFB.

If Vendors have questions, or issues regarding any component within this IFB, those must be submitted as questions in accordance with the instructions in the BID QUESTIONS Section. If the State determines that any changes will be made as a result of the questions asked, then such decisions will be communicated in the form of an IFB addendum. The State may also elect to leave open the possibility for later negotiation and amendment of specific provisions of the Contract that have been addressed during the question-and-answer period.

Other than through the process of negotiations under 01 NCAC 05B.0503, the State rejects and will not be required to evaluate or consider any additional or modified terms and conditions submitted with Vendor's bid. This applies to any language appearing in or attached to the document as part of the Vendor's bid that purports to vary any terms and conditions or Vendors' instructions herein or to render the bid non-binding or subject to further negotiation. Vendor's bid shall constitute a firm offer that shall be held open for the period required herein ("Validity Period" above).

**The State may exercise its discretion to consider Vendor proposed modifications. By execution and delivery of this IFB Response, the Vendor agrees that any additional or modified terms and conditions, whether submitted purposely or inadvertently, shall have no force or effect, and will be disregarded unless expressly agreed to during negotiations and incorporated by way of Best and Final Offer (BAFO). Noncompliance with, or any attempt to alter or delete, this paragraph shall constitute sufficient grounds to reject Vendor's bid as nonresponsive.**

Location: **VIRTUAL LINK? See IFB Schedule above**

Contact: bahaa.jizi@doa.nc.gov

Contact #: 984-236-0218

*Panda - Bahaa Jizi*

**Instructions:** Vendor representatives are URGED and CAUTIONED to attend the pre-bid conference and apprise themselves of the conditions and requirements which will affect the performance of the work called for by this IFB. A non-mandatory pre-bid conference is scheduled for this IFB. Submission of a bid shall constitute sufficient evidence of Vendor's compliance and no allowance will be made for unreported conditions which a prudent Vendor would recognize as affecting the performance of the work called for in this IFB.

Vendor is cautioned that any information released to attendees during the pre-bid conference, other than that involving the physical aspects of the facility referenced above, and which conflicts with, supersedes, or adds to requirements in this IFB, must be confirmed by written addendum before it can be considered as a part of this IFB and any resulting contract.

## 2.6 BID QUESTIONS

Upon review of the IFB documents, Vendors may have questions to clarify or interpret the IFB in order to submit the best bid possible. To accommodate the Bid Questions process, Vendors shall submit any such questions by the "Submit Written Questions" date and time provided in the IFB SCHEDULE Section above, unless modified by Addendum.

Questions related to the content of the solicitation, or the procurement process should be directed to the person on the title page of this document via the Sourcing Tool's message board by the date and time specified in the IFB SCHEDULE Section of this IFB. Vendors will enter "IFB # DPC-704600681-BJ – Questions" as the subject of the message. Question submittals should include a reference to the applicable IFB section. This is the only manner in which questions will be received.

Questions or issues related to using the Sourcing Tool itself can be directed to the North Carolina eProcurement Help Desk at 888-211-7440, Option 2. Help Desk representatives are available Monday through Friday from 7:30 AM ET to 5:00 PM ET.

Questions received prior to the submission deadline date, the State's response, and any additional terms deemed necessary by the State will be posted in the Sourcing Tool in the form of an addendum and shall become an Addendum to this IFB. No information, instruction or advice provided orally or informally by any State personnel, whether made in response to a question or otherwise in connection with this IFB, shall be considered authoritative or binding. Vendors shall rely *only* on written material contained in an Addendum to this IFB.

## 2.7 BID SUBMITTAL

**IMPORTANT NOTE: This is an absolute requirement.** Late bids, regardless of cause, will not be opened or considered, and will be automatically disqualified from further consideration. Vendor shall bear the sole risk of late submission due to unintended or unanticipated delay. It is the Vendor's sole responsibility to ensure its bid has been received as described in this IFB by the specified time and date of opening. Failure to submit a bid in strict accordance with instructions provided shall constitute sufficient cause to reject a Vendor's bid(s). Solicitation responses are subject to Sealed Bidding requirements.

Vendor's bids for this procurement must be submitted through the Sourcing Tool, in the required relative **Content Section**. For training on how to use the Sourcing Tool to view solicitations, submit questions, develop responses, upload documents, and submit offers to the State, Vendors should go to the following site: <https://eprocurement.nc.gov/training/vendor-training>

Questions or issues related to using the Sourcing Tool itself can be directed to the North Carolina eProcurement Help Desk at 888-211-7440, Option 2. Help Desk representatives are available Monday through Friday from 7:30 AM EST to 5:00 PM EST.

#### Tips for Using the Sourcing Tool

1. Vendors should review available training and confirm that they are able to access the Sourcing Event, enter responses, and upload files well in advance of the date and time response are due to allow sufficient time to seek assistance from the North Carolina eProcurement Help Desk.
2. Vendors may submit their responses early to make sure there are no issues, and then submit a revised response any time prior to the response due date and time. The State will only review the most recent response.
3. Vendors should respond to all relevant sections of the Sourcing Event. Certain questions or items are required in order to submit a response and are denoted with an asterisk. The Sourcing Tool will not allow a response to be submitted unless all required items are completed. The Sourcing Tool will provide error messages to help identify any required information that is missing when response is submitted.
4. Simply saving your response in the Sourcing Tool is not the same as submitting your response to the State. Vendors should make sure they complete the submission process and receive a message that their response was successfully submitted.

## 2.8 BID CONTENTS

Vendors shall provide responses to all questions and complete all attachments for this IFB that require the Vendor to provide information and upload them to the Sourcing Event in the Sourcing Tool. Vendor may not be able to submit its response in the Sourcing Tool unless all required items are addressed. Vendors shall provide authorized signatures where requested. Failure to provide all required items, or Vendor's submission of incomplete items, may result in the State rejecting Vendor's bid, in the State's sole discretion.

Vendors shall upload the following items and attachments in the Sourcing Tool:

- a) Cover Letter, must include the following: (i) a statement that confirms that the Vendor has read the IFB in its entirety, including all links, and all Addenda released in conjunction with the IFB; (ii) a statement that Vendor agrees to perform in accordance with the scope of work, requirements, and specifications contained herein; and (iii) Vendor's agreement to comply with all instructions, terms and conditions, and attachments.

## 2.9 ALTERNATE BIDS

Unless provided otherwise in this IFB, Vendor may submit alternate bids for comparable Goods, various methods or levels of Service(s), or that propose different options. Alternate bids must specifically identify the IFB requirements and advantage(s) addressed by the alternate bid. Each bid must be for a specific set of Goods and Services and must include specific pricing. Each bid must be complete and independent of other bids offered. If a Vendor chooses to respond with various offerings, Vendor shall follow the specific instructions for uploading Alternate Bids in the Sourcing Tool

## 2.10 DEFINITIONS, ACRONYMS, AND ABBREVIATIONS

Relevant definitions for this IFB are provided in 01 NCAC 05A .0112 and in the Instructions to Vendors found Sourcing Tool, which are incorporated herein by this reference.

## 3.0 METHOD OF AWARD AND BID EVALUATION PROCESS

---

### 3.1 METHOD OF AWARD

North Carolina G.S. 143-52 provides a general list of criteria the State shall use to award contracts, as supplemented by the additional criteria herein. The Goods or Services being procured shall dictate the application and order of criteria; however, all award decisions shall be in the State's best interest.

All responsive bids will be reviewed, and award or awards will be based on the lowest responsive bids(s) to provide the estimated requirements as to breadth of lines, highest % discount offered off MSRP List, quantity, quality, delivery, service, and/or geographical coverage. It is the State's intent to have multiple manufacturers represented in each category.- Products offered must currently be available in the manufacturer's published MSRP. Submission of price schedules developed specifically for this Bid WILL result in disqualification from award consideration. However, the State reserves the right to award multiple vendors per manufacturer to provide comprehensive coverage of vehicles without any unforeseen interruptions due to a plant closing, chip shortage, or supply chain issues. **Multiple awards in each category per manufacture will allow the State with the flexibility to select the dealer of its choice based on:**

- **Vehicle availability**
- **Dealer geographic location**
- **Lead Time**
- **Warranty Service**
- **Better working relationship**

While the intent of this IFB is to award a Contract(s) to multiple Vendors, the State reserves the right to make separate awards to different Vendors for one or more-line items, to not award one or more-line items or to cancel this IFB in its entirety without awarding a Contract if it is considered to be most advantageous to the State to do so.

The State reserves the right to waive any minor informality or technicality in bids received.

### 3.2 CONFIDENTIALITY AND PROHIBITED COMMUNICATIONS DURING EVALUATION

While this IFB is under evaluation, the responding Vendor, including any subcontractors and suppliers, is prohibited from engaging in conversations intended to influence the outcome of the evaluation. See the Paragraph of the Instructions To Vendors entitled COMMUNICATIONS BY VENDORS.

Each Vendor submitting a bid to this IFB, including its employees, agents, subcontractors, suppliers, subsidiaries and affiliates, is prohibited from having any communications with any person inside or outside the using agency; issuing agency; other government agency office or body (including the purchaser named above, any department secretary, agency head, members of the General Assembly and Governor's office); or private entity, if the communication refers to the content of Vendor's proposal or qualifications, the content of another Vendor's proposal, another Vendor's qualifications or ability to perform a resulting contract, and/or the transmittal of any other communication of information that could be reasonably considered to have the effect of directly or indirectly influencing the evaluation of proposals, the award of a contract, or both.

Any Vendor not in compliance with this provision shall be disqualified from evaluation and award. A Vendor's proposal may be disqualified if its subcontractor and/or supplier engage in any of the foregoing communications during the time that the procurement is active (*i.e.*, the issuance date of the procurement until the date of contract award or cancellation of the procurement). Only those discussions, communications or transmittals of information authorized or initiated by the issuing agency for this IFB or inquiries directed to the purchaser named in this IFB regarding requirements of the IFB (prior to proposal submission) or the status of the award (after submission) are excepted from this provision.

### 3.3 BID EVALUATION PROCESS

Only responsive submissions will be evaluated.

*ParadC - Bahaa Jizi*

The State will conduct an evaluation of responsive Bids, as follows:

Bids will be received according to the method stated in the Bid Submittal section above.

All bids must be received by the issuing agency not later than the date and time specified in the IFB SCHEDULE Section above, unless modified by Addendum. Vendors are cautioned that this is a request for offers, not an offer or request to contract, and the State reserves the unqualified right to reject any and all offers at any time if such rejection is deemed to be in the best interest of the State.

At the date and time provided in the IFB SCHEDULE Section above, unless modified by Addendum, the bids from each responding Vendor will be opened publicly and all offers (except those that have been previously withdrawn, or voided bids) will be tabulated. The tabulation shall be made public at the time it is created. When negotiations after receipt of bids is authorized pursuant to G.S. 143-49 and 01 NCAC 05B.0503, only the names of offerors and the Goods and Services offered shall be tabulated at the time of opening. Cost and price shall become available for public inspection at the time of the award... Interested parties are cautioned that these costs and their components are subject to further evaluation for completeness and correctness and therefore may not be an exact indicator of a Vendor's pricing position.

At their option, the evaluators may request oral presentations or discussions with any or all Vendors for clarification or to amplify the materials presented in any part of the bid. Vendors are cautioned, however, that the evaluators are not required to request presentations or other clarification—and often do not. Therefore, all bids should be complete and reflect the most favorable terms available from the Vendor. Prices bid cannot be altered or modified as part of a clarification.

Bids will generally be evaluated, based on completeness, content, cost, and responsibility of the Vendor to supply the requested Goods and Services. Specific evaluation criteria are listed in Section 3.1 METHOD OF AWARD.

Upon completion of the evaluation process, the State will make Award(s) based on the evaluation and post the award(s) to **the electronic Vendor Portal (eVP)**, <https://evp.nc.gov>, under the IFB number for this solicitation. Award of a Contract to one Vendor does not mean that the other bids lacked merit, but that, all factors considered, the selected bid was deemed most advantageous and represented the best value to the State.

The State reserves the right to negotiate with one or more Vendors, or to reject all original offers and negotiate with one or more sources of supply that may be capable of satisfying the requirement, and in either case to require Vendor to submit a Best and Final Offer (BAFO) based on discussions and negotiations with the State.

### 3.4 PERFORMANCE OUTSIDE THE UNITED STATES

Vendor shall complete ATTACHMENT F: LOCATION OF WORKERS UTILIZED BY VENDOR. In addition to any other evaluation criteria identified in this IFB, the State may also consider, for purposes of evaluating proposed or actual contract performance outside of the United States, how that performance may affect the following factors to ensure that any award will be in the best interest of the State:

- a) Total cost to the State
- b) Level of quality provided by the Vendor

- c) Process and performance capability across multiple jurisdictions
- d) Protection of the State's information and intellectual property

### 3.5 INTERPRETATION OF TERMS AND PHRASES

This IFB serves two functions: (1) to advise potential vendors of the parameters of the solution being sought by the State; and (2) to provide (together with other specified documents) the terms of the Contract resulting from this procurement. The use of phrases such as "shall," "must," and "requirements" are intended to create enforceable contract conditions. In determining whether bids should be evaluated or rejected, the State will take into consideration the degree to which Vendors have proposed or failed to propose solutions that will satisfy the State's needs as described in the IFB. Except as specifically stated in the IFB, no one requirement shall automatically disqualify a Vendor from consideration. However, failure to comply with any single requirement may result in the State exercising its discretion to reject a bid in its entirety.

## 4.0 REQUIREMENTS

This Section lists the requirements related to this IFB. By submitting a bid, the Vendor agrees to meet all stated requirements in this Section, as well as any other specifications, requirements, and terms and conditions stated in this IFB. If a Vendor is unclear about a requirement or specification or believes a change in a requirement would allow for the State to receive a better bid, the Vendor is encouraged to submit these items in the form of a question during the question-and-answer period in accordance with the Bid Questions Section above.

### 4.1 PRICING

Volume or tier discounts, if offered, shall apply to purchase orders placed for delivery to the same location. Vendors may provide volume or tier discounts to orders that include multiple delivery points from the same agency.

The State reserves the right to accept or reject all or part of the proposed Additional Discount Offers as part of a Vendor's Total Price Submittal Value. The vehicles shall be supplied with all equipment and accessories indicated as standard equipment in the manufacturers' published literature, except for those accessories and equipment where furnishing such would conflict with a specific requirement otherwise called for herein. In such cases, the specific requirement herein takes precedence. Changes in standard equipment that the manufacturer may make after bid opening shall have no effect on the equipment included in vehicles delivered in response to this bid unless the State, at its sole option, elects to accept the changes. Vendor must be officially authorized to offer all makes and models included in its bid, whether requiring conventional fuels (including diesel) or alternative fuels.

**Note: All vehicles listed in ATTACHMENT A-PRICING SUBMITTAL WORKBOOK shall include the following standard package unless otherwise requested by the buying entity:**

### 5.2 AUTHORIZED CUSTOMERS OF POLICE PURSUIT VEHICLES (PPV)

The Police Pursuit Vehicles (PPV) is available to any and all units of local governments/political subdivisions including, but not limited to, county, local county board of public instruction, municipalities and/or police agencies, other local public or public safety agencies or authorities, and any private university and college within the State of North Carolina.

All Customers are bound by their individual governing purchasing ordinances, rules and regulations. All Vendors/dealers are governed by their manufacturer's agreement.

Note that for batteries, alternators, and engine size, Vendor may NOT offer smaller than the manufacturer's standard sizes as advertised in manufacturer's current published literature, regardless of the requirement herein. For example, if a 500 CCA battery is required, and the mfr. offers a 650 CCA battery as standard, with an optional (deduct) battery at 540 CCA, Vendor may NOT offer the 540 CCA battery. Vendor must offer the standard 650 CCA battery.

The State (or Other Authorized Entity purchaser, if applicable) shall have final approval of Vendor-furnished equipment using the above criteria, at the time of delivery or before such equipment is ordered by the Vendor, whichever is more appropriate.

Any non-standard color with minimum color restrictions shall be noted by the Vendor on the appropriate line item.

### **5.3 Zero Emission Vehicle (ZEV)**

The State is encouraging vendors to provide ZEV that produces no tailpipe emissions of greenhouse gases and pollutants during operation. ZEVs are designed to significantly reduce or eliminate the environmental impact associated with traditional internal combustion engine vehicles, which contribute to air pollution and climate change.

There are several types of ZEVs, each utilizing different technologies to achieve zero emissions:

1. Battery Electric Vehicles (BEVs): These vehicles are powered solely by an electric motor that draws energy from an onboard battery pack. BEVs store electricity from an external power source, such as the electric grid, and use it to propel the vehicle. They produce zero tailpipe emissions and offer a range that depends on the capacity of their battery pack.
2. Fuel Cell Electric Vehicles (FCEVs): FCEVs use hydrogen as their fuel source and employ fuel cells to convert hydrogen and oxygen into electricity, which then powers the electric motor. These vehicles emit only water vapor as a byproduct, making them completely emission-free. FCEVs typically have a longer range compared to BEVs and can be refueled relatively quickly.
3. Plug-in Hybrid Electric Vehicles (PHEVs): PHEVs combine an internal combustion engine with an electric motor and a rechargeable battery pack. They can operate on electric power alone for a limited range, after which the internal combustion engine kicks in. PHEVs offer the advantage of extended range and the ability to recharge the battery pack through external power sources, reducing overall emissions.

### **5.4 B20 FUEL COMPATIBLE ENGINES**

The State is requiring the purchase of diesel engines that are B20 compatible in accordance with NC General Statute 143-341(8)i. On items for which "B20 Compatible" is required in the specification, only bids specifying that B20 compatible engines are available for those line items will be considered for award. This requirement shall have no effect on the vehicle warranty as required.

### **5.5 15-PASSENGER VANS**

State Law requires that all vehicles used to transport students for instructional purposes be designed and equipped in accordance with federal school bus construction specifications. Thus, a school system may not use a van that does not meet federal standards to transport students for instructional purposes (ref. G.S. 115C-240(c) and 242).

By execution and delivery of its bid, Vendor represents and warrants that it will sell a 15-passenger van to a school or school district only after receipt of a written statement from the ordering school that the vehicle will NOT be used to transport students to school or school-related events.

No decals or markings of any type pertaining to advertisement or identification of Vendor shall be allowed on or in any vehicle delivered under this Contract.

### **5.8 HIGH INTENSITY DISCHARGE (HID) HEADLIGHTS**

HID headlights are prohibited on all vehicles provided under this Contract. Line items offered only with HID headlights may not be considered for award. Likewise, there may be instances in which a model has been referenced in error, which cannot actually meet the specifications of that line item. Question #	Document Section	Vendor Question	State's Response
2	General	Price can be adjusted to reflect the change in the model year that will cause dealers to bid using 2024 pricing. Given the timing of the IFB and anticipated pricing schedules for 25MY, dealers will have to turn around and submit a price increase for 25MY, as our manufacturer no longer guarantees roll over pricing.	Please see Addendum Modification #3, above.
3	Executive Order 50	NC Price Preference: Previous IFBs for the NC70A contract have included an In State Price Preference in the terms and conditions designed to maximize the chances of NC tax funds being spent with North Carolina based vendors.  Will there be an NC Vendor Price Preference specification added to this IFB?	No. NC Price Preference – EO-50 Price Matching does not apply.
4	Page 5, Section 1.0, Paragraph 7	Please define which agencies or entities are authorized to utilize this contract for vehicle procurement. Understand that just because the State allows an entity to purchase off of this contract, the manufacturer's may not offer government concessions to entities that they deem non-government agencies.	Please refer to the link below for State Agencies, Community Colleges and Higher Education are considered state government agencies.  <a href="https://www.nc.gov/your-government/state-organizations">https://www.nc.gov/your-government/state-organizations</a>  LEAs, local government, and municipalities are considered non-government agencies.
5	Page 10, Section 3.1, Paragraph 2	Please clarify what "Submission of price schedules developed specifically for this bid WILL result in disqualification from award consideration" means.	Vendors are not permitted to devise their own pricing structure for this bid. The pricing schedule must align with the manufacturer's pricing, as supplied to its authorized dealers for each offered vehicle.
6	Page 11, section 3.3, Paragraph 3	Please provide the location/url where the Bid Tabulation will be available.	The PRE-bid tabulation will be provided through the eVP tool. Only the names of the bidders will be provided in the Pre-Bid Tabulation.
7	Page 12, Section 4.1	Please confirm that the State will not be providing specific body models for pricing, and that the vendor is responsible for determining which body models they will be providing pricing for.	Correct, Vendors shall provide the make, model for each vehicle being offered in each category.

Question #	Document Section	Vendor Question	State's Response
8	Page 15, Section 4.7, Item#1	It is not possible for a vendor to know days to delivery at purchase order receipt date, or at any stage during the order, scheduling, production, or delivery stages. Supply constraints, collective bargaining delays, and transport delays are all parts of the current vehicle production/delivery model and are beyond the control of dealers, and thus this language should be amended or removed.	Provision will remain.  An expected delivery time is required to manage and maintain expectations for the need of vehicles. Communication may be updated (See Section 4.7.5) as adjustments are required.
9	Page 18, Section 5.0, Paragraph 2:	Please clarify what "Two (2) sets of keys with knockouts removed or two (2) key fobs" means. This could be amended to "Two factory supplied keys" since it doesn't look like keyless entry is a minimum requirement of this IFB	The term "knockouts" refers to small, detachable sections often found on key blanks. Removing knockouts means that any additional, removable sections on the keys have been taken out, leaving the keys in their final, usable state. This might be done during the manufacturing process or before the keys are provided to the Purchasing Entity.  See Addendum Modification #2, above. This requirement is amended as follows: <b>Two factory supplied keys with keyless entry.</b>
10	Page 24, Section 5.20:	The requirement for special colors was removed from the current NC70A contract as NCDOT and NC Forestry were purchasing white vehicles.  Can you confirm that the State will be requiring these special colors again?  On previous IFBs, this requirement restricted competition as only one manufacturer was able to conform to this requirement.	Section 5.2 SPECIAL COLORS shall remain should an agency requires a special color paint.
11	Executive Order #50	I don't see any reference to Executive order #50 "Enhanced Purchasing Opportunities for NC Businesses" as in previous bids.	See answer to question 3 above.
