2. The following are questions received about the Solicitation and the State's response to those questions:

Question #	Document Section	Vendor Question	State's Response
1	4.5 Delivery	The current contract states that any department ordering three cases of ammo or more would receive free shipping. Is that still going to be part of the contract requirements on this new contract? Same question above also applies to firearms as well. As the current contract states the same for ordering one firearm equals free shipping.	See Section 4.1 Paragraph 1. All pricing for individual orders of ammunition or firearms should be inclusive of all applicable charges.
2	Section 3.0, sub-section 3.1	If a manufacturer does not/cannot offer an actual commercial MSRP list (i.e.-for items/lines only available to government/law enforcement as some of these manufacturers have) what are we to submit in lieu of an actual "MSRP" price list?	See Section 3.1 Paragraph 3: If the manufacturer does not offer a published MSRP price catalog, the Vendor will have the manufacturer generate an Excel MSRP Price List Spreadsheet. The manufacturer will certify in writing, on company letterhead signed by a manufacturer's authorized representative, that the Vendor is an authorized distributor and the MSRP pricing referenced for this bid is also certified by the manufacturer.
3	Section 4.0, sub-section 4.1, paragraph 4	If unable to offer percentage off of a non-existent/not published commercial MSRP list by a manufacturer, will a dollar amount per specific portions of a line be acceptable (i.e.-a specific dollar amount off of each unit/item of manufacturer's agency direct pricing schedule vice)?	See response to Question #2.
4	IFB Attachment A, column D	Regarding the source document required from manufacturers to establish their MSRP pricing, some do not publish a comprehensive MSRP list. If a manufacturer does not offer an MSRP list, will an official letter from the manufacturer stating that they do not have a public catalog suffice/be acceptable for submission/upload?	See response to Question #2.
5	Section 4.0, subsection 4.12, subsection 6.11 Ariba Sourcing Tool	Due to conflict with manufacturers' binding authorized distributor or dealer representation agreements, there can be non-compete issues for authorized distributors due to product overlap if bidding an entire line vice portions not in competition with all or	See Section 1 of Addendum, Modification #1 and Modification #10.

Question #	Document Section	Vendor Question	State's Response
		portions of another manufacturer lines. To avoid that possibility, when responding with a manufacturers line, must it be a complete catalog vice just specific portions broken down by segment (i.e.-rifles, shotguns, pistols, or firearms restricted to sworn Law Enforcement Agency sale/use only?	
6	Section 2.7	There are two "portals" seen in the solicitation: eVP and SAP Ariba Commerce Cloud account. As the solicitation explains, we are to respond through the Ariba Sourcing Event. If that is the case, what role, if any, does eVP play regarding this solicitation?	The electronic vendor portal (eVP) system is designed to provide vendors the ability to register and manage vendor accounts, as an administrative functions of the system. Ariba Sourcing is the system the allows vendors to respond to solicitations, within the Ariba Sourcing Event. In summary, eVP facilitates the entire process of posting, viewing, and responding to solicitations, ensuring transparency and efficiency in procurement activities.
7	Section 4.0, subsection 4.22	Distributors (vendors) are not equipped to provide firearms training. This must go through the manufacturer's training entity (i.e.-Glock Professional). Can the wording be changed in 4.22 to "distributor will coordinate with manufacturer to arrange training through manufacturer authorized training group (i.e.-Glock Professional, Benelli USA.c..)?	See Section #1 of Addendum, Modification #9.
8	Section 4.0, subsection 4.22	Does this indicate in any way, shape or form that the vendor will be liable for the associated costs of product training?	See Section #1 of Addendum, Modification #9.
9	Section 3.3	Is previous North Carolina State Contract compliance a deciding factor in bid award in the case of a "tie"?	No, not in the case of a tie.
10	Section 4.0, subsection 4.21	As an addendum, can the wording be changed from "Vendor to maintain multiple dealers" to read similar to "Manufacturers to maintain multiple distributors or dealers"? This makes things clearer as LE distributors do not, as far as anyone has ever seen, use 3rd party "dealers" as part of their distribution or order fulfillment.	The intent of this section is to allow for the "option" of the awarded vendor providing designation of authorized dealers. If this is not an option, select "No", and it will not apply. For those vendors that select "Yes", a list of the Authorized Dealers will have to be provided. Any resulting list will be confirmed by way of details provided in the Section 4.9 Authorized Reseller's Attached Manufacturer's Authority.

Question #	Document Section	Vendor Question	State's Response
11		It is the states preference, and the possibility, on this solicitation for the manufacturers to respond directly to the solicitation with a list of authorized distributors, correct? * The burden will fall on the manufacturers to make sure both distribution and mfg are within compliance (performance wise)?	Yes, manufacturers are welcome to provide a response to the solicitation, with a list of Authorized Dealers (Section 4.21). Also, resellers are welcome to provide response to the solicitation, with confirmation of authorization to resell (Section 4.9). In both cases, the burden of ensuring compliance relies on responding vendor.
12		If the answer to question 1 is "Yes", The EP Fee will be handled directly with the manufacturer OR is the responsibility with the authorized distributor that the purchase order was issued to? * To note - manufacturers manage the EP fee but it is easier to track if Dist. Pays directly on the PO in case they discount further. This information may not be available to manufacturing.	The payment of the EP Fee will be the responsibility of the vendor receiving the Purchase Order through EP system.
13		Many of the manufacturers may have accessory product lines on their price list including but not limited to: Optics, apparel, and/or suppressors. The contract specifies that we cannot create a price list specifically for this solicitation. However, those auxiliary item categories could prohibit deeper discounts on firearms or ammunition to the state for what the solicitation is seeking. If a manufacturer falls into this category, can we submit a modified price list that redacts certain SKUs but maintains advertised MSRP? * An alternative would be if we could list 2 discounts. 1 on "Core items" and 1 on "Accessories and parts"	See Section 1 of Addendum, Modification #3 and Modification #4.
14		I would request that the state considers posting answers with an addendum to include a 48-hour window for follow up questions with a slightly postponed bid opening.	No. The State will not post an addendum to allow vendors to submit additional questions.
15	Section 1.1 CONTRACT TERM	We respectfully request that the final sentence of Section 1.1 of the IFB be amended to read: o "At the end of the Contract's initial term the contract may be extended for	The clause is intended to allow the State and awarded Vendor an opportunity to extend beyond the indicated contract term. 		an additional term upon mutual written agreement of the State and Vendor." o In the alternative, if the State cannot make this change, can you please clarify whether: (1) this clause is intended to allow the State to unilaterally extend the contract, (2) if so, the term length that the State will have the authority to extend the contract for, and (3) whether Vendor will have an opportunity to update pricing for any contract extension period?	extended contract term and any additional modifications.
16	Section 3.1 METHOD OF AWARD	Defense items are considered a custom order and do not have an MSRP price list. o Will a failure to submit a MSRP price list disqualify us from consideration.	See response to Question #2.
17	Section 4.1 PRICING	Respectfully request the State modify Attachment A – Pricing form clarifying the pricing discount with and without Firearms and Ammunition Excise Tax.	See Section 1 of Addendum, Modification #4 and Modification #7.
18	Section 4.3 PRODUCT IDENTIFICATION	Respectfully requests the State modify ITB #: DPC-983753040 to include suppressors and optics.	See Section 1 of Addendum, Modification #10.
19	Section 4.6 DEFECTIVE PRODUCTS	Respectfully requests that Section 4.6 Defective Products be amended to read: In the event a product is found to be defective, Vendor agrees to repair or replace the item, in accordance with the terms of the provided warranty."	See Section 1 of the Addendum, Modification #5.
	Section 4.7 PRODUCT RECALL	Respectfully requests that the last sentence of Section 4.7 Product Recall be amended to read: The Vendor shall support the Contract Manager in necessary follow-up with State entities that have purchased recalled products to adjust or replace as appropriate, at no cost to the State, such products promptly."	See Section 1 of the Addendum, Modification #6.

Question #	Document Section	Vendor Question	State's Response
	Section 4.15 SUSTAINABILITY EFFORT	Respectfully requests further explanation on what the State is requesting and requiring in this section.	The State is requesting that vendors provide how the manufacturer products provide for sustainability efforts, related to product packaging and products, to include any sustainability attributes, such as any green initiative certifications, recycled content percentages, or other sustainability features, related to this industry.
	Section 4.16 RETURN POLICY	We understand the requested return policy. Firearms are difficult to accept on a return basis due to the serial number transactions and legal requirements. We are happy to provide a no penalty cancellation policy within 30 days of shipment to provide the Government protection in the event firearms are no longer wanted, which we believe covers item 4.16(1), all items delivered under this contract will be built to order so would qualify as a custom order subject to 4.16(2) and therefore be unreturnable. Our warranty policy, provided in as part of this bid submission, will cover any defective, damaged, or otherwise erroneous material (4.1(3)-(6)).	See section 1 of Addendum, Modification #8.
	Section 4.22 TRAINING	We offer a variety of training options to Law Enforcement agencies. Training and pricing can vary depending on department requirements and is difficult to quote as the total cost. We respectfully request the State modify Attachment A – Pricing form to include: - o A column to input each course name and course description. - o A column to input number of days each course will require for certification. - o A column to add specific pricing for each training course offered to comply with the requirements listed in Section 4.22. 1.0 PURPOSE AND BACKGROUND

The Department of Administration (DOA) serves as the business manager for North Carolina State government and provides leadership to State government for the effective, efficient, economical, and equitable delivery of services to the public. The department also aids and services several advocacy programs that serve diverse segments of the State's population that have traditionally been underserved. The Division of Purchase & Contract (P&C) is the strategic force to provide the State's entities with a catalog of Statewide Term Contracts (STC) that provide for an encompassing organized and efficient manner to pool resources to provide goods and services.

The State through the Department of Administration (DOA) Division of Purchase & Contract (P&C) is seeking qualified vendors to establish a Statewide Term Contract to furnish and deliver a comprehensive, multiple manufacturer product line of new, unused, currently produced ammunition and firearms in two (2) categories throughout the State of North Carolina, on an "As Needed" basis, if and when ordered by State Departments, Agencies, and Higher Education Institutions during the contract period.

The intent of this Invitation for Bid (hereinafter, "IFB") is to receive pricing from Vendors which will offer savings to the State and confirm, through Vendors' submission of bids, its ability to meet the State's needs.

The contract resulting from this IFB is mandatory for State departments and most State Agencies, and by State higher education institutions (except under the conditions specified in G.S. 115D-58.14(a) and G.S. 116-13). The Contract may also be utilized, without further competition, by non-mandatory State Agencies and Other Eligible Entities.

Bids shall be submitted in accordance with the terms and conditions of this IFB and any addenda issued hereto.

The intent of this solicitation is to award Statewide Term Contract.

1.1 CONTRACT TERM

The Contract shall have an initial term of five (5) years, beginning on the date the Contract is executed by the State (the "Effective Date").

At any time during the contract period the State may conduct an Open Enrollment process by posting a solicitation in the Ariba Sourcing Tool for the purpose of adding new manufacturer(s) to the contract, to provide a wide coverage of Ammunition and Firearms. The awarded Vendors will remain on the contract for the duration of the contract term unless terminated for convenience.

At the end of the Contract's initial term the State reserves the right to extend a contract term after the last active term.

1.2 ESTIMATED SPEND

Based on the historical usage of the STC, the estimated spending for the five (5) year term of this contract is \$7 million dollars.

This amount is not guaranteed and could be more or less than the historical expenditure during the contract period. No maximum or minimum quantities are guaranteed.

2.0 GENERAL INFORMATION

2.1 INVITATION FOR BID DOCUMENT

The IFB is comprised of the base IFB document, any attachments, and any addenda released before Contract award, which are incorporated herein by reference.

2.2 E-PROCUREMENT FEE

ATTENTION: This is an NC eProcurement solicitation facilitated by the Ariba Network. The E-Procurement fee may apply to this solicitation. See paragraph entitled ELECTRONIC PROCUREMENT of the North Carolina General Terms and Conditions.

General information on the E-Procurement Services can be found at: <http://eprocurement.nc.gov/>.

What is the Ariba Network?

The Ariba Network is a web-based platform that serves as a connection point for buyers and vendors. Vendors can log in to the Ariba Network to view purchase orders, respond to electronic requests for quotes, participate in Sourcing Events, and collaborate with buyers on contract documents.

For training on how to use the Sourcing Tool to view solicitations, submit questions, develop responses, upload documents, and submit offers to the State, Vendors should go to the following site:

<http://eprocurement.nc.gov/training/vendor-training>.

2.3 NOTICE TO VENDORS REGARDING IFB TERMS AND CONDITIONS

It shall be the Vendor's responsibility to read the Instructions to Vendors, the North Carolina General Terms and Conditions, all relevant exhibits and attachments, and any other components made a part of this IFB and comply with all requirements and specifications herein. Vendors also are responsible for obtaining and complying with all Addenda and other changes that may be issued in connection with this IFB.

If Vendors have questions, or issues regarding any component within this IFB, those must be submitted as questions in accordance with the instructions in the BID QUESTIONS Section. If the State determines that any changes will be made as a result of the questions asked, then such decisions will be communicated in the form of an IFB addendum. The State may also elect to leave open the possibility for later negotiation and amendment of specific provisions of the Contract that have been addressed during the question-and-answer period.

Other than through the process of negotiations under 01 NCAC 05B.0503, the State rejects and will not be required to evaluate or consider any additional or modified terms and conditions submitted with Vendor's bid. This applies to any language appearing in or attached to the document as part of the Vendor's bid that purports to vary any terms and conditions or Vendors' instructions herein or to render the bid non-binding or subject to further negotiation. Vendor's bid shall constitute a firm offer that shall be held open for the period required herein ("Validity Period" above).

The State may exercise its discretion to consider Vendor proposed modifications. By execution and delivery of this IFB Response, the Vendor agrees that any additional or modified terms and conditions, whether submitted purposely or inadvertently, shall have no force or effect, and will be disregarded unless expressly agreed to during negotiations and incorporated by way of a Best and Final Offer (BAFO). Noncompliance with, or any attempt to alter or delete, this paragraph shall constitute sufficient grounds to reject Vendor's bid as nonresponsive.

Instructions: Vendor representatives are URGED and CAUTIONED to attend the pre-bid conference and apprise themselves of the conditions and requirements which will affect the performance of the work called for by this IFB. A non-mandatory pre-bid conference is scheduled for this IFB. Submission of a bid shall constitute sufficient evidence of Vendor's compliance and no allowance will be made for unreported conditions which a prudent Vendor would recognize as affecting the performance of the work called for in this IFB.

2.6 BID QUESTIONS

Upon review of the IFB documents, Vendors may have questions to clarify or interpret the IFB in order to submit the best bid possible. To accommodate the Bid Questions process, Vendors shall submit any such questions by the "Submit Written Questions" date and time provided in the IFB SCHEDULE Section above, unless modified by Addendum.

Questions related to the content of the solicitation, or the procurement process should be directed to the person on the title page of this document via the Sourcing Tool's message board by the date and time specified in the IFB SCHEDULE Section of this IFB. Vendors will enter "IFB # DPC-983753040 – Questions" as the subject of the message. Question submittals should include a reference to the applicable IFB section. This is the only manner in which questions will be received.

Questions or issues related to using the Sourcing Tool itself can be directed to the North Carolina eProcurement Help Desk at 888-211-7440, Option 2. Help Desk representatives are available Monday through Friday from 7:30 AM ET to 5:00 PM EST.

Questions received prior to the submission deadline date, the State's response, and any additional terms deemed necessary by the State will be posted in the Sourcing Tool in the form of an addendum and shall become an Addendum to this IFB. No information, instruction or advice provided orally or informally by any State personnel, whether made in response to a question or otherwise in connection with this IFB, shall be considered authoritative or binding. Vendors shall rely *only* on written material contained in an Addendum to this IFB.

2.7 BID SUBMITTAL

IMPORTANT NOTE: This is an absolute requirement. Late bids, regardless of cause, will not be opened or considered, and will be automatically disqualified from further consideration. Vendor shall bear the sole risk of late submission due to unintended or unanticipated delay. It is the Vendor's sole responsibility to ensure its bid has been received as described in this IFB by the specified time and date of opening. Failure to submit a bid in strict accordance with instructions provided shall constitute sufficient cause to reject a Vendor's bid(s). Solicitation responses are subject to Sealed Bidding requirements.

Vendor's bids for this procurement must be submitted through the Sourcing Tool. For training on how to use the Sourcing Tool to view solicitations, submit questions, develop responses, upload documents, and submit offers to the State, Vendors should go to the following site: <https://eprocurement.nc.gov/training/vendor-training>.

Questions or issues related to using the Sourcing Tool itself can be directed to the North Carolina eProcurement Help Desk at 888-211-7440, Option 2. Help Desk representatives are available Monday through Friday from 7:30 AM EST to 5:00 PM EST.

Tips for Using the Sourcing Tool

1. Vendors should review available training and confirm that they are able to access the Sourcing Event, enter responses, and upload files well in advance of the date and time response are due to allow sufficient time to seek assistance from the North Carolina eProcurement Help Desk.
2. Vendors may submit their responses early to make sure there are no issues, and then submit a revised response any time prior to the response due date and time. The State will only review the most recent response.
3. Vendors should respond to all relevant sections of the Sourcing Event. Certain questions or items are required in order to submit a response and are denoted with an asterisk. The Sourcing Tool will not allow a response to be submitted unless all required items are completed. The Sourcing Tool will provide error messages to help identify any required information that is missing when response is submitted.
4. Simply saving your response in the Sourcing Tool is not the same as submitting your response to the State. Vendors should make sure they complete the submission process and receive a message that their response was successfully submitted.
5. **Only Bids submitted through the Content Section of the Ariba Sourcing Event will be considered. Bids submitted through the Message Board will not be accepted or considered for award.**

2.8 BID CONTENTS

Vendors shall provide responses to all questions and complete all attachments for this IFB that require the Vendor to provide information and upload them to the Sourcing Event in the Sourcing Tool. Vendor may not be able to submit its response in the Sourcing Tool unless all required items are addressed. Vendors shall provide authorized signatures where requested. Failure to provide all required items, or Vendor's submission of incomplete items, may result in the State rejecting Vendor's bid, in the State's sole discretion.

Vendors shall upload the following items and attachments in the Sourcing Tool:

- a) Completed and signed version of EXECUTION PAGES, along with the body of the IFB.
- b) Signed receipt pages of any addenda released in conjunction with this IFB, if required to be returned.
- c) Vendor Response (Sections: 4.1, 4.6, 4.10, 4.11, 4.12, 4.13, 4.14, 4.15, 4.19, 4.21, 6.1)
- d) Completed version of ATTACHMENT A: PRICING FORM
- e) Completed and signed version of ATTACHMENT D: HUB SUPPLEMENTAL VENDOR INFORMATION

- h) Completed and signed version of ATTACHMENT G: CERTIFICATION OF FINANCIAL CONDITION
- i) Completed and signed version of CERTIFICATION FOR CONTRACTS, GRANTS, LOANS, AND COOPERATIVE AGREEMENTS and OMB STANDARD FORM LLL

2.9 ALTERNATE BIDS

Unless provided otherwise in this IFB, Vendor may submit alternate bids for comparable Goods, various methods or levels of Service(s), or that propose different options. Alternate bids must specifically identify the IFB requirements and advantage(s) addressed by the alternate bid. Each bid must be for a specific set of Goods and must include specific pricing. Each bid must be complete and independent of other bids offered. If a Vendor chooses to respond with various offerings, Vendor shall follow the specific instructions for uploading Alternate Bids in the Sourcing Tool.

2.10 DEFINITIONS, ACRONYMS, AND ABBREVIATIONS

Relevant definitions for this IFB are provided in 01 NCAC 05A .0112 and in the Instructions to Vendors found Sourcing Tool, which are incorporated herein by this reference.

3.0 METHOD OF AWARD AND BID EVALUATION PROCESS

3.1 METHOD OF AWARD

North Carolina G.S. 143-52 provides a general list of criteria the State shall use to award contracts, as supplemented by the additional criteria herein. The Goods or Services being procured shall dictate the application and order of criteria; however, all award decisions shall be in the State's best interest.

All responsive bids will be reviewed, and award or awards will be based on the responsive bids(s) to provide the estimated requirements as to breadth of items in each category offered, highest percentage discount offered off the most recently published Manufacturer Standard Retail Price (MSRP) List, quantity, quality, delivery, service, and/or geographical coverage, to include any required verifications set out herein such as but not limited to past performance, references, and financial documents.

If the manufacturer does not offer a published MSRP price catalog, the Vendor will have the manufacturer generate an Excel MSRP Price List Spreadsheet. The manufacturer will certify in writing, on company letterhead signed by a manufacturer's authorized representative, that the Vendor is an authorized distributor and the MSRP pricing referenced for this bid is also certified by the manufacturer.

It is the State's intent to have a single manufacturer represented in each category. If two (2), or more Vendors offer the same manufacturer's product(s), it is the intent of the State to make an award to the Vendor with the most complete offering per category, and highest percentage discount offered off MSRP List for a particular manufacturer's product(s).

Products offered must currently be available on the manufacturer's most recently published MSRP. **Submission of price schedules developed specifically for this Bid WILL result in disqualification from award consideration.**

While the intent of this IFB is to award a Contract(s) to multiple Vendors, the State reserves the right to make separate awards to different Vendors for one or more line items, to not award one or more line items or to cancel this IFB in its entirety without awarding a Contract, if it is considered to be most advantageous to the State to do so.

The State reserves the right to waive any minor informality or technicality in bids received.

3.2 CONFIDENTIALITY AND PROHIBITED COMMUNICATIONS DURING EVALUATION

While this IFB is under evaluation, the responding Vendor, including any subcontractors and suppliers, is prohibited from engaging in conversations intended to influence the outcome of the evaluation. See the Paragraph of the Instructions To Vendors entitled COMMUNICATIONS BY VENDORS.

Each Vendor submitting a bid to this IFB, including its employees, agents, subcontractors, suppliers, subsidiaries and affiliates, is prohibited from having any communications with any person inside or outside the using agency; issuing agency; other government agency office or body (including the purchaser named above, any department secretary, agency head, members of the General Assembly and Governor's office); or private entity, if the communication refers to the content of Vendor's proposal or qualifications, the content of another Vendor's proposal, another Vendor's qualifications or ability to perform a resulting contract, and/or the transmittal of any other communication of information that could be reasonably considered to have the effect of directly or indirectly influencing the evaluation of proposals, the award of a contract, or both.

Any Vendor not in compliance with this provision shall be disqualified from evaluation and award. A Vendor's proposal may be disqualified if its subcontractor and/or supplier engage in any of the foregoing communications during the time that the procurement is active (i.e., the issuance date of the procurement until the date of contract award or cancellation of the procurement). Only those discussions, communications or transmittals of information authorized or initiated by the issuing agency for this IFB or inquiries directed to the purchaser named in this IFB regarding requirements of the IFB (prior to proposal submission) or the status of the award (after submission) are excepted from this provision.

3.3 BID EVALUATION PROCESS

Only responsive submissions will be evaluated.

The State will conduct an evaluation of responsive Bids, as follows:

Bids will be received according to the method stated in the Bid Submittal section above.

All bids must be received by the issuing agency not later than the date and time specified in the IFB SCHEDULE Section above, unless modified by Addendum. Vendors are cautioned that this is a request for offers, not an offer or request to contract, and the State reserves the unqualified right to reject any and all offers at any time if such rejection is deemed to be in the best interest of the State.

At the date and time provided in the IFB SCHEDULE Section above, unless modified by Addendum, the bids from each responding Vendor will be opened publicly and all offers (except those that have been previously withdrawn, or voided bids) will be tabulated. The tabulation shall be made public at the time it is created. When negotiations after receipt of bids is authorized pursuant to G.S. 143-49 and 01 NCAC 05B.0503, only the names of offerors and the Goods and Services offered shall be tabulated at the time of opening. Cost and price shall become available for public inspection at the time of the award. Interested parties are cautioned that these costs and their components are subject to further evaluation for completeness and correctness and therefore may not be an exact indicator of a Vendor's pricing position.

At their option, the evaluators may request oral presentations or discussions with any or all Vendors for clarification or to amplify the materials presented in any part of the bid. Vendors are cautioned, however, that the evaluators are not required to request presentations or other clarification—and often do not. Therefore, all bids should be complete and reflect the most favorable terms available from the Vendor. Prices cannot be altered or modified as part of a clarification.

Bids will generally be evaluated, based on completeness, content, cost, and responsibility of the Vendor to supply the requested Goods and Services. Specific evaluation criteria are listed in Section 3.1 METHOD OF AWARD.

Upon completion of the evaluation process, the State will make Award(s) based on the evaluation and post the award(s) to **the electronic Vendor Portal (eVP)**, <https://evp.nc.gov>, under the IFB number for this solicitation. Award of a contract to one Vendor does not mean that the other bids lacked merit, but that, all factors considered, the selected bid was deemed most advantageous and represented the best value to the State.

The State reserves the right to negotiate with one or more Vendors, or to reject all original offers and negotiate with one or more sources of supply that may be capable of satisfying the requirement, and in either case to require Vendor to submit a Best and Final Offer (BAFO) based on discussions and negotiations with the State.

3.4 PERFORMANCE OUTSIDE THE UNITED STATES

Vendor shall complete **ATTACHMENT F: LOCATION OF WORKERS UTILIZED BY VENDOR**. In addition to any other evaluation criteria identified in this IFB, the State may also consider, for purposes of evaluating proposed or actual contract performance outside of the United States, how that performance may affect the following factors to ensure that any award will be in the best interest of the State:

- a) Total cost to the State
- b) Level of quality provided by the Vendor
- c) Process and performance capability across multiple jurisdictions
- d) Protection of the State's information and intellectual property
- e) Availability of pertinent skills
- f) Ability to understand the State's business requirements and internal operational culture
- g) Particular risk factors such as the security of the State's information technology
- h) Relations with citizens and employees
- i) Contract enforcement jurisdictional issues

3.5 INTERPRETATION OF TERMS AND PHRASES

This IFB serves two functions: (1) to advise potential Vendors of the parameters of the solution being sought by the State; and (2) to provide (together with other specified documents) the terms of the contract resulting from this procurement. The use of phrases such as "shall," "must," and "requirements" are intended to create enforceable contract conditions. In determining whether bids should be evaluated or rejected, the State will take into consideration the degree to which Vendors have proposed or failed to propose solutions that will satisfy the State's needs as described in the IFB. Except as specifically stated in the IFB, no one requirement shall automatically disqualify a Vendor from consideration. However, failure to comply with any single requirement may result in the State exercising its discretion to reject a bid in its entirety.

4.0 REQUIREMENTS

This Section lists the requirements related to this IFB. By submitting a bid, the Vendor agrees to meet all stated requirements in this Section, as well as any other specifications, requirements, and terms and conditions stated in this IFB. If a Vendor is unclear about a requirement or specification or believes a change in a requirement would allow for the State to receive a better bid, the Vendor is encouraged to submit these items in the form of a question during the question and answer period in accordance with the Bid Questions Section above.

4.1 PRICING

Bid price shall constitute the total cost to the State for delivery fully assembled and ready for use, including all applicable charges for shipping, delivery, handling, administrative and other similar fees. Complete **Attachment A: Pricing Form** and upload in the Sourcing Tool. The pricing provided in ATTACHMENT A, or resulting from any negotiations, is incorporated herein and shall become part of any resulting contract.

ATTACHMENT A – Pricing contains a total of two (2) categories: Ammunition and Firearms. A vendor is not required to bid on all categories.

Vendors shall offer a COMPLETE Manufacturer's Product Line. Incomplete, partial Product Lines, or selected Products from a Product Line will not be considered. Failure to offer the COMPLETE Product Line Shall render the Bid non-responsive and result in rejection of Bid.

For each product line being offered per category, the Vendor will offer a single percentage discount greater than 0%. Pricing shall also be listed after discount with and without Firearms and Ammunition Excise Tax.

The Vendor will demonstrate reasonableness of price by offering the Percentage Discount to North Carolina that is the same or better than provided in a current contract to similarly situated governmental entities (i.e. other State contracts, GSA, NASPO ValuePoint, Veteran's Administration, Department of Defense or other governmental entities). If the Vendor is unable to offer the Percentage Discount to NC that is the same or better than given to other similarly situated governmental entities, Vendor shall include with the response a brief explanation as to why they are unable to do so. The State reserves the right to request further information such as copies of other governmental contracts, to determine the reasonableness of the price offered.

4.2 ADDITIONAL SAVINGS OFFERS/REBATES

This component of the Pricing Response is optional, but the State encourages Vendors to provide additional financial incentives/rebates, if possible, within the scope of this IFB, that will benefit the State. These additional incentives could include, but are not limited to additional discounts based on total spend volumes, tier pricing, rebates, additional discounts by manufacturer, etc. Additional Discount Offers shall be in addition to the discounts Vendor offers as a List Item Price.

Additional Discounts: As part of the pricing submittal, Vendors are being requested to propose an additional percentage discount which would be applied to all orders for the remainder of the contract term if and when the total orders against the contract exceed the provided amount, at any point during the life of the contract.
